Dear Chief Fraijo -

Please accept my sincere sympathy for you Hot Shots, and any other fire fighters or residents that have been injured or lost homes.

I have lived in AZ for 34 years. My parents took us kids all over, including Prescott, to learn history first hand. And of course, as an adult have visited your town to watch my friend's band play, or go camping.

I love our state and its people. And as you know, we all grieve with you, your department, and your town. You are not alone.
