Hi Dan,

It was good to see you a few weeks ago at the D-Badge presentation for the firefighters. I remember seeing you at one of the Camelback reunions many years ago. I remember you quite well as our senior class President and as a teammate on the football team. You were a real good halfback & I was your backup at right half.

I've been here in Prescott for about 14 years now after retiring from a teaching career in Phx, my wife & I really love it here & would never move back to Phx. We both do volunteer work. I had been doing work with the forest service & with Habitat for Humanity.

We are so fortunate to have you as our Fire Chief here in Prescott. I've heard about your distinguished career & dedication in the firefighting field.

I know that it's been extremely difficult these past weeks with the tragedy in Yarnell. Dan, you gave such a touching speech and tribute to the firemen at the memorial. It was a beautiful & uplifting ceremony. It's great how our town & country have shown so much compassion & generosity.

(over)

Dan, It would be great to visit with you sometime when things get better & less hectic. I know that you are really busy right now with your job as the Fire chief.

With best wishes,

Ted Pohle
