

January 25, 1933.

Mr. J. A. Fraps, Engineer,
Arizona Highway Department,
Phoenix, Arizona.

My dear Sir:

In reply to your letter of the 24th instant, relative to the collection of certain fees from counties, I advise you as follows:

It is my opinion that, if a county shall file with you any application for approval of plans for a proposed dam, such county must accompany such application with the fees prescribed under the act relating to dam supervision.

Very truly yours,

RBS:H

Assistant Attorney General
