Governor Sidney P. Osborn  
State of Arizona  
Phoenix, Arizona

Dear Governor Osborn:

The Executive Committee of the Associated Students of the University of California feels deeply concerned over the fate of the Japanese students who are being forced to leave. We have been personally acquainted with many of them, and while, of course, we can not vouch for all individuals, we feel that many of those involved are as hard-working, intelligent, loyal, and really American as any students on the campus.

Some of these students may be coming to your State to continue their studies. We hope that you will esteem them as we do, and will see fit to use your influence to help them in every way possible.

Sincerely yours,

Ralph T. Fisher, Jr.  
A.S.U.C. President  
for the  
A.S.U.C. Executive Committee
