

THE YARNELL

19

*We face the wrath of nature
The worst it has to give,*

*To quell the anger in its flames,
Our stance definitive.*

*We are the warriors on the ridge
Driven into night,*

*Scratching out the battle lines
To bind the monster tight.*

*With gnashing teeth and searing breath
It howls against the lash.*

*The Sentry in defiance
Vows "I will not let you pass."*

*"It's I who stands between your reach,
your violent overflow*

*And those who flee your anger
In the valley depths below.*

*I set my stance before you
In this hell of heat and grime*

*To face the rage within you
And to buy them precious time*

***If in this fight you take my all
- I've nothing more to give,***

***I mark this place my hallowed ground
That multitudes may live.***

God Bless the Yarnell-19
