

To Whom It May Concern:

It is my wish that this small **donation** be added to the funds collected for the families of the 19 hotshot firefighters who were lost. I know they were very brave individuals and loved what they were doing.

My family would like the families to know they are in our prayers. Our prayers are also with the young man who survived. Living in Southern California, we are very aware of the work the firefighters do. We thank them all for their service .

May God Bless them all.
The Michel family
