SUBJECT: Line of Duty Deaths

As a firefighter, it unimaginable for me to comprehend what you and your staff have experienced over the past few weeks. The loss of one firefighter is tragic in its own sense; the loss of nineteen firefighters is devastating and will have a huge impact on your department for many years to come. Therefore, on behalf of the men and women from the City of Johns Creek as well as the Johns Creek Public Safety Foundation we would like to extend our sincere condolences to the Prescott Fire Department and the Granite Mountain Hotshots on the loss of the brave men that so honorably gave their lives on June 30, 2013. Though you will never be able to replace these men, just know that the legacy and leadership they left behind will be carried on to future firefighters. Please accept our contribution, and use it as you will for the families of these Great American Heroes.

Respectfully, and with condolences,

Jeff Hogan, Fire Chief

Ivan Figueroa, Chairman, Johns Creek Public Safety Foundation
