

To the Prescott Fire House and the families of the Granite Mountain Hotshots,

First we would like to extend our deepest sympathy to all of you for the loss of **your** friends and loved ones. They are true heroes. The company I do my business with was recently evacuated due to the fire, which brought this devastation closer than just watching it on TV.

We launched our website, remainswithmejewelry.com, a few months ago which carries the Tree of Life Memorial Urn Pendant. We would like to offer the families who lost someone from the Granite Mountain Hotshots Crew one pendant each (total of 19), in hopes that it might bring even a small bit of meaningful comfort and hope. Although we cannot grasp the full weight of your loss, we do know what it's like to lose a loved one so suddenly and unexpected. We hope that you will, day by day, continue to find the peace and comfort that we have come to know-

We would be honored to have the families accept the gift. We really just want to make sure the actual families of the Hotshots Crew receive these personal gifts. We would like to direct them to visit the website where they can read about the comfort and hope we are extending to them and they can look at both pendants and decide which one they would like. They both have the same Tree of Life design but one also has a hollow chamber to hold the ashes of the departed.

Below is our contact information so they can call and/or email us with their acceptance of the gift.

Phone: {

Sincerely,

Aurora Dubuque
