# Report of Secretary of State

## STATE OF ARIZONA, OFFICE OF THE SECRETARY.

Phoenix, Arizona, January 2, 1915.

To His Excellency, GEO. W. P. HUNT,  
Governor of the State of Arizona,  
State House.

Sir:—

In compliance with the provisions of Subdivision 12, Paragraph 57, Chapter VII, Revised Statutes of Arizona 1913, I have the honor to present, herewith, my report as Secretary of State from January 1, 1914, to December 31, 1914, both inclusive.

**OFFICIAL ACTS OF THE GOVERNOR.****Communtations, Pardons, Reprieves and Other Proclamations.**

The records of this department, kept in accordance with Subdivision 2, Paragraph 57, Chapter VII, Title I Civil Code, Revised Statutes, 1913, shows that the Governor has granted 6 full and unconditional pardons, 20 restorations to citizenship, 20 commutations of sentence; has issued 9 proclamations of reprieve, 14 holiday and other proclamations; has honored 10 requisitions from other states for prisoners; and has issued 15 extraditions for prisoners in other states; has issued 223 Notarial Commissions; made 19 executive appointments; accepted 2 resignations from members of the Legislature.

---

**FEES.**

Allow me to reiterate what I have said in each of my annual reports relative to the fees by this office, i. e.: that the charges prescribed by law are entirely too high. For instance, it is impossible to have the session laws of a Legislature printed and distributed within a less time than forty-five days after adjournment; therefore, anyone wishing a copy of the existing law can only procure same by having a copy of the law as passed made from the original on file in this office, for which the Secretary is required to charge twenty cents per folio, making the cost in all cases too high, and in some exorbitant. The legal charge for a copy of a single law has been as much as One Hundred Dollars.

**TO MY MIND FEES FOR PUBLIC SERVICE SHOULD NOT BE FIXED FOR PROFIT, BUT SHOULD BE SET AT A FIGURE THAT WILL COVER THE ACTUAL COST AND NOTHING MORE.**

Also, the fact that the fees are so excessive, results in a loss of revenue to the State, because it prevents a large number from obtaining certified copies who would otherwise do so.

It seems that a plan could and should be evolved whereby each bill that becomes law would be immediately printed in pamphlet form for general distribution to the people of the State. It would be less expensive and of more benefit than the present mode of

having each bill introduced in the Legislature printed as introduced, when, as a matter of fact, seldom, if ever, does a bill become a law in the form as introduced and generally as passed would not be recognized by the introducer.

However, this is a matter that is entirely in the hands of the Legislature, and I simply make the above as a suggestion.

### INITIATIVE AND REFERENDUM.

The number of signatures required to insure the submission of a proposition under the powers of the Initiative or Referendum at the General Election held November 3, 1914, were as follows:

Constitutional amendment .....	3,243
Statute .....	2,162
Referendum .....	1,081

The number of signatures necessary to insure the submission of a proposition under the above mentioned powers, at the General Election to be held in November, 1916, will be as follows:

Constitutional amendment .....	7,651
Statute .....	5,101
Referendum .....	2,551

There were during the years 1913-1914 petitions filed in this office asking that twenty-four propositions be submitted to the people under the powers of the Initiative and Referendum. Of this number the following failed to receive a sufficient number of signatures, and were, therefore, not submitted:

A Bill (commonly known as the Kinney Bill) prescribing certain regulations concerning the qualifications and employment of workmen and laborers engaged in certain extra hazardous employments and prescribing penalties for the violation thereof. Received 2077 signatures. Failed by 85 signatures.

A Constitutional amendment to amend Clause 5 of Sec 1 of the Constitution of the State of Arizona, declaring that any initiative measure, amendment to the Constitution or measure to which the referendum is applied, shall not be declared unconstitutional by the Courts, when it has been approved by a majority of the votes cast thereon and proclaimed law by the Governor. Received 2,228 signatures. Failed by 1,015 signatures.

A Constitutional amendment providing for the abolition of the State Senate. Received 3,020 signatures. Failed by 217 signatures.

A Constitutional amendment providing that Sec. 8 of Article XVIII of the Constitution of the State of Arizona be amended. (Workmen's Compensation Law) received 2,934 signatures. Failed by 309 signatures.

A Constitutional amendment to amend Sec. 5, or Article IV of the Constitution of Arizona, providing that the State might contract debts for certain purposes. Received 2,970 signatures. Failed by 273 signatures.

Nineteen propositions received the required number of signatures and were, therefore, submitted to the electors at the General Election held November 3, 1914. The measures submitted and vote cast for and against such are shown in the following table:

# GENERAL ELECTION RETURNS

NOVEMBER 3, 1914.  
STATE OF ARIZONA

## AMENDMENTS TO CONSTITUTION

Counties	To amend the Constitution of the State of Arizona, prohibiting the sale and manufacture of intoxicating liquors within the State of Arizona and providing a penalty for the violation thereof.		To amend Article VII of the Constitution of the State of Arizona by adding four new sections to be numbered 17, 18, 19 and 20, providing that no prohibition election be held for a period of eight years from and after such previous election.		An act to amend Section V of Article IX, of the Constitution of the State of Arizona, providing for the issuance of bonds to the amount of \$5,000,000 for the construction of State highways.		An act to amend Section V of Article IX, of the Constitution of the State of Arizona, providing for a State Reclamation service.		An act to amend Section 6 of Article IV, of the Constitution of the State of Arizona, providing that the veto power of the Governor, or the power of the Legislature, to repeal or amend shall not extend to initiative or referendum measures approved by a majority vote of the qualified electors.

From the foregoing table it is manifest that nine measures were approved and ten failed.

A tabulation of the vote by counties is shown in the preceding tables.

Publicity pamphlets, given the title and text of each measure submitted, together with arguments filed in favor of and against certain measures were printed and distributed to 70,181 citizens of the State. The pamphlets contained 116 printed pages. The total cost of printing, mailing, etc., was \$6,332.41, the postage alone amounting to \$1950. Of this amount \$1,222.63 was paid by persons who had arguments printed in the pamphlet for and against certain of the measures.

Relative to signatures to petitions, beg to call your attention to the fact that under the present law it is a physical impossibility to check the petitions in order to ascertain whether or not the signers are qualified electors and therefore legally qualified to sign same, and because of this, fraud could be easily practiced, and if practiced would be practically impossible to detect. The reason for this is: The Constitution of the State gives a qualified elector the right to sign an initiative, referendum or recall petition, and under our statutes, a person may be a qualified elector without having registered. In other words, registration is not required in order that a person be a qualified elector.

The Revised Statutes of Arizona, 1901, which were in force at the time of the adoption of the Constitution, and continued in force by provision of that document, and remained in force until the adoption of the 1913 Code, required registration as one of the qualifications of an elector (see Para. 2282, R. S. 1901), but this qualification was omitted in the 1913 Code, (see Para. 2879, R. S. 1913, Civil Code), hence it is readily seen that it is impossible to check the signatures to petitions.

Should provision be made requiring registration as one qualification of an elector, it will be necessary to keep the Great Register open during the entire year. Under the present law the Great Register is closed during the entire period of each odd numbered year, and as the sessions of the Legislature are held in odd numbered years, and it being provided that referendum petitions against any act of the Legislature must be filed within ninety days after the close of the session at which the measure was enacted, the

necessity for keeping the Great Register open at all times is obvious. Also, the Register is closed from January 1st to May 1st of even numbered years, and as the final time in which initiative petitions can be filed expires in July of each even numbered year, it is immediately manifest that the period allowed for signing such petitions is too short.

Also, I recommend that an amendment be made to the Registration Law, providing that a person be required to give his or her post office address when registering. This will facilitate the distribution of the Publicity Pamphlets and insure their being received by voters. At present one registering is required to give only his or her voting precinct, and many times the postoffice address cannot be ascertained from this, and so many voters failed to receive the pamphlets.

Much trouble, litigation and expense will be obviated in the future if a provision is inserted in the Statutes providing that all proceedings to restrain the Secretary of State from placing any proposition or propositions upon the ballot must be brought within ten days after the final date for filing initiative petitions. Otherwise, sooner or later litigation of this character will be commenced at a date so late that it will be impossible to furnish the certificate of measures to the Clerks of the Boards of Supervisors in time to have the ballot printed by the date of the election, and for the same reason the printing and distribution of the Publicity Pamphlets will be so delayed that many of the voters will not receive them.

In making up the budget of appropriations necessary for the maintenance of this Department for the fiscal years commencing July 1915 and ending June 30, 1917, I have prepared a carefully itemized statement showing the precise need for each amount, with the exception of the money that may be needed to carry into effect the Initiative and Referendum provisions of the State Constitution, and it is impossible to make any estimate whatever, as to this, because of the fact that I cannot even approximate the number of measures that will be initiated within the next two years, or the number of laws enacted by the present Legislature against which referendum petitions will be directed, nor the length of the proposed laws to be submitted.

In 1912, there were thirteen propositions submitted, the Publicity Pamphlet contained thirty-seven pages, and was mailed to

but 30,749 persons, that number being the total registration for that year. The total cost of printing, mailing, etc., was \$2,291.22.

In 1914 there were nineteen propositions submitted. The Publicity Pamphlet, containing one hundred and sixteen pages, was mailed to 70,181 persons, this being the total registration for that year, and the total cost as itemized was \$5,179.08. The postage alone amounted to \$1,950.00.

It may be in 1916 that the number of propositions submitted under the Initiative and Referendum will be greatly increased, thereby increasing the expense, or it may be that they will be materially decreased, but which will be the case no one knows, and because of this, I am unable to even approximate the money that will be needed incident to carrying into effect the provisions of the law, and therefore I would recommend that a blanket appropriation be made to cover this item.

**MOTOR VEHICLE REGISTRATION.**

Following is a comparative table showing the motor vehicle business transacted by this office for the years 1912, 1913 and 1914:

**MOTOR VEHICLE REGISTRATION AND FEES.**

	Sept. 20, 1912 Dec. 31, 1913	Jan. 1, to Dec. 31, 1914
Total number of Motor Vehicle Licenses.....	3,098	5,040
Number of Gasoline passenger cars.....	2,923	4,757
Number of electric passenger cars.....	10	17
Number of Gasoline trucks.....	165	266
Number of motorcycles.....	485	743
Number of automobile transfers.....	138	266
Number of Chauffeur Licenses.....	703	439

**TOTAL RECEIPTS.**

Motor Vehicle Licenses .....		\$29,864.00
Motorcycle Licenses .....	\$16,948.50	1,397.00
Chauffeur Licenses .....	3,517.00	2,191.00
Extra Seals Sold .....		160.00
Transfer Fees .....	467.50	465.50
	\$20,933.00	\$34,077.50

**AUTOMOBILE REGISTRATION BY COUNTIES.**

Pima .....	564
Pinal .....	103
Santa Cruz .....	115
Yavapai .....	254
Yuma .....	117
	5,040

I wish to call your attention to the fact that the foregoing tables show the increase in the number of automobiles registered in 1914 over the number registered in 1912-1913 to be 1,912, an increase of 61 per cent. and an increase in revenue of \$13,144.50, or 60 per cent. Substantially, the same increase is found in the number of motorcycles registered and revenue derived therefrom, and I believe that it is fair to presume that this ratio of increase will be continued throughout the years 1915-1916.

There were two separate appropriations made for the motor vehicle department for the years 1913-1914, one of \$5,000.00 in the general appropriation bill and one of \$5,000.00 in the motor vehicle law, making a total of \$10,000.00 for the two years above mentioned. During the year 1914 there was expended from this fund \$3,862.32, being \$1,137.68 less than was appropriated, and therefore. I am asking an appropriation for the maintenance of this department of \$8,500.00, \$4,000.00 for 1915 and \$4,500.00 for 1916. This is less by \$1,500.00 than the amount appropriated for the years 1913-1914.

I note that the State Tax Commission, in its annual report for the year 1914, declares that there is something radically wrong with the Arizona Motor Vehicle Law, and infer that the particular thing that is wrong is that the license fee charged for registering motor vehicles is not high enough. In arriving at this conclusion, the above named Commission take the California law as the basis for their deductions and conclusions. True, the license fee in California is considerably higher than in this State, but in a number of other states it is considerably lower than in Arizona. But taking the California law as the basis, they have not taken into consideration that before that State imposed a license fee at all, it issued bonds in the sum of \$18,000,000.00 for the purpose of building a system of State highways, and did build such a system, one of the best of any state in the Union, and in addition to that, nearly, if not every county in the State, issued bonds in amounts ranging from \$500,000.00 to \$3,000,000.00 for road building and improve-

ment, and so California gives owners of motor vehicles something for their money; while in Arizona, if the roads in Maricopa County are a criterion by which one may judge, the motorists get absolutely nothing except two tin number plates which we buy in bulk for 10 cents each. I dare say that the automobile owners of Arizona would not only be willing but glad to pay even a higher license than our neighbors on the west, if the State would provide such roads as has California, for the reason that the depreciation of a car in this State, because of the wear and tear occasioned by the miserable roads, is conservatively estimated to be 50 per cent greater than in California; but under the present circumstances to raise the auto license fee would practically amount to extortion and would be unwise in the extreme.

In the report of the State Tax Commission a table of figures is given, "purporting to show that the tax paid by motor vehicle owners in proportion to their actual use of the roads is inadequate". In this connection, I beg to submit that the statistics and data necessary to show the proportionate use of the highways by motor vehicles has never been gathered in Arizona, therefore, the figures are idle guesswork and consequently of no value.

The present method, prescribed by law, of arriving at the horse power of a car, known as the A. L. A. M. rating, being the square of the bore of the cylinder, multiplied by the number of cylinders and divided by 2.5, is not an equitable one, and discriminates against certain makes of cars and in favor of others. A more equitable rating should by all means be prescribed.

I find that the owners of motor vehicles almost without exception, make every effort to comply with the law, except in one of its provisions, i. e.; the one requiring owners to immediately notify the Secretary of State when they dispose of their machines. This provision is repeatedly violated. Heretofore, I have been extremely lenient with the violators, but henceforth they will be prosecuted.

Also, a provision should be inserted in the law that no one, either individual or dealer, should be allowed to carry any number plate other than the one furnished by the State. Under the existing statute dealers are allowed to carry printed numbers, and these at times fall into the hands of unscrupulous or careless owners, thereby enabling them to avoid paying their license or at least, makes detection difficult.

Subdivision 10 of Paragraph 5133 of the Arizona Motor Vehicle Law provides that all non-residents temporarily within this State who have complied with the motor vehicle laws and regulations of their State shall be exempt from registering their machines and paying the Arizona license fee for a period of six months. Similar provisions are in force in nearly all of the States, except that the exemption varies from six months in Arizona to one month in some other States. From this it is seen that Arizona motorists do not get the consideration in other states as is received by residents of these states temporarily within Arizona. For instance, a California license is good in Arizona for six months while an Arizona license is good in California but for three. It seems that the six months exemption clause in the Arizona law should be repealed and a reciprocity provision enacted to take its place. In other words, a license issued by another state should be good in Arizona for the same length of time that an Arizona license is good in that state, and no longer.

I respectfully recommend that the chauffeur license either be abolished or an examination, both practical and technical, be provided for by law. Under the present law, the only qualification a chauffeur must possess is the ability to pay the five dollar fee. It is not required that he even be familiar with the primary principles necessary to the operation of a machine. The chauffeurs get nothing for their money and the public in general is in no way protected from incompetent, inefficient or careless driving.

The Secretary of State should be given power to revoke a chauffeur's license for cause, and provisions made to enable the chauffeur to have the matter determined by a court of competent jurisdiction.

I also recommend that Subdivision 2 of Paragraph 5135 of the Motor Vehicle Law be amended to read as follows: "Every motor vehicle while in use on a public highway shall be provided with good and efficient brakes, and also with suitable bell, horn, or other signal, and be so constructed as to exhibit, during the period from one hour after sunset to one hour before sunrise, two lamps showing white lights, visible within a reasonable distance in the direction towards which such vehicle is proceeding, **such lamps to be frosted on the upper half of the glass**, and also a red light visible in the reverse direction; provided, that motorcycles should be required to exhibit but one white light during the period herein

specified". The frosting of the upper half of the glass of the lamps will not only eliminate much inconvenience, but actual danger, as the glare from the unshaded lamps blinds the person approaching.

I further recommend that the fee to be paid for motor vehicle licenses be regulated as follows: All licenses applied for from January 1 to March 30 of each year, be charged for at the full annual rate; all licenses applied for from April 1 to June 30 of each year, be charged three-fourths of the annual rate; all licenses applied for from June 1 to September 30 of each year, be charged one-half the annual rate; and all licenses applied for from October 1 to December 31 of each year, be charged one-fourth the annual rate.

---

### REVISED STATUTES.

The Revised Statutes of Arizona, 1913, Civil and Penal Code, enacted by the Second and Third Special Sessions of the First Legislature of the State of Arizona, were annotated and indexed by Code Commissioner S. L. Pattee, and printed and distributed under the direction of the Secretary of State. The Code was printed in two volumes, Civil and Penal.

The Tax Commission levied \$25,000.00 to defray the expense of printing the Statutes. The total expense of proof-reading, printing and distributing was but \$12,423.26, leaving an unexpended balance of \$12,576.74, more than one-half of the amount levied, which, of course, reverted back to the Treasury. The prices at which the Codes are sold, One Dollar for the Penal, and Five Dollars for the Civil, will, if all the copies are disposed of, which I anticipate will be before another revision takes place, reimburse the State for every dollar paid out for their printing.

---

### DENTAL LAWS.

During the year 1914 there were four applications made for licenses to practice dentistry. The applicants were examined by the State Board of Examiners and all failed to pass, and were, therefore, refused license to practice in this State.

---

### RECOMMENDATIONS.

I beg to recommend to you and through you to the Legislature, now in session, that the law setting the time at which the Secretary

of State shall make his annual report be changed from January 2nd to June 30th. In other words, that the annual report of the Secretary of State shall be made at the end of the fiscal year and not at the end of the calendar year, as is now provided. A change of this kind will result in avoiding much confusion.

I also beg to advise you that the supply of pamphlet copies of the State Constitution has been entirely exhausted, and if it is deemed desirable to supply the people of Arizona and other states with copies of this document free of charge, an appropriation sufficient to cover the cost of printing same will have to be made. I have hundreds of calls each month for pamphlet copies of the Constitution.

It seems that there is no manner provided by law for the canvass of the vote cast for candidates for state office. Section 11 of Article V of the State Constitution reads as follows: "The returns of the election for all state officers shall be canvassed, and certificates of election issued by the Secretary of State, in such manner as may be provided by law". However, up to the present time no method has been provided. This defect should, by all means, be corrected by the present Legislature.

I also beg to submit that the previous Legislatures have provided for printing more copies of the Session Laws than have been actually needed. 2,000 copies of the 1912 Session Laws were printed by order of the Legislature, and up to date there have been but 1,468 copies distributed. 500 copies of the misnamed Session Laws of 1913 were printed and only 358 distributed. Therefore, in order to save expense and storage room, which is extremely valuable in our badly overcrowded Capitol Building, I suggest that 1,500 copies of the 1915 Session Laws be printed, and I assure you that that number of copies will be ample to supply all needs.

Appended hereto are the general election returns of the election held in the State of Arizona on November 3rd, 1914, showing the names of each person voted for, for a National or State Office, in said election. The number of votes received by each person in each county of the State, and the total number of votes received by each person in the State.

Respectfully submitted,

SIDNEY P. OSBORN,  
Secretary of State.

Yavapai (estimated)	4,881
Yuma	2,243
Total	54,916

I, Sidney P. Osborn, Secretary of State of Arizona, hereby certify that the accompanying table is a true, correct and complete tabulation of the returns of the General Election held in the State of Arizona on November 3rd, 1914, showing the name of each person voted for, for a National or State Office, in said election, the number of votes received by each person in each county of said State, and total number of votes received by each person in the State.

Dated Phoenix, Arizona, November Thirtieth, 1914.

(SEAL)

SIDNEY P. OSBORN,

Secretary of State.
