From the Director's Desk

Dear Fellow Hunter,

It is my pleasure to write this welcome to all new and returning hunters to Arizona. I am proud to say that Arizona offers some of the best hunting experiences in the nation. If you have hunted in Arizona before, you know the diversity of wildlife and habitat that provide extraordinary hunting opportunities. If this is your first time hunting in Arizona, you are in store for a memorable experience.

Whether you bag a 6 x 6 elk, a spike deer, several cottontail rabbits or go home empty-handed, the times spent in the field with your friends and family are some of the best times you will ever have. The camaraderie is unparalleled. And if you're lucky enough to go on a hunt with your children, as I have done, and sleep out under the stars together, the experience will provide lasting memories. What better way to know your children than around a campfire with none of the distractions of our daily lives.

As those of you familiar with Arizona's Hunting and Trapping Regulations will see, we have re-designed the booklet somewhat this year. We undertook this project to make it easier for new hunters, as well as experienced, to find the information they need for a successful hunt. We have included a new youth section and more color for readability. We believe that the future of hunting, as well as the conservation of natural resources, is irrevocably tied to the recruitment of our youth to these time-honored traditions. We hope this new version of the regulations provides you with the necessary information for your hunting trips.

Over the years, the hunting regulations have changed significantly, just like our state. We face many challenges in Arizona including continued drought that has persisted for more than a decade, wildfires spanning hundreds of thousands of acres and the loss of wildlife habitat to development as the population of our state continues to double every 20 years. It is for these reasons and many more that our hunting regulations in Arizona have become more complicated and are constantly evolving. With the help of the public and the direction of our Commission, we face these challenges together.

In Arizona, and many other states, our wildlife management policies follow the North American Model of Wildlife Management. One of the cornerstones of this model is that the people of the state own the wildlife within their borders. Our charge is to manage wildlife "for the people of Arizona." The principles that everyone should have access to wildlife

Director Duane L. Shroufe

regardless of economic position and that there should be a self-regulating hunter code of conduct are also inherent in this management model. Although frequently challenged, Arizona has maintained and improved our wildlife resources by adhering to these standards. This model has elevated the United States to world leadership in wildlife management and its results are the envy of every nation. The public reaps these benefits every time we see an elk in Arizona, a deer in Pennsylvania or a bald eagle flying over the Rocky Mountains. You and I share in these benefits every day and owe a debt of gratitude to our forefathers whose vision in the development of this model of management ensures this legacy for generations to come.

I would like to thank every citizen in our state who takes pride in our natural resources and understands that it is incumbent on our generation to take responsibility for what we leave the next; in particular, I would like to thank our dedicated hunting community for its substantial contributions to the future of wildlife in Arizona.

Happy hunting,

Duane L. Shroufe,
Director

Changes for 2007-2008

This list is for informational purposes only and lists the major changes that have occurred since publication of the last regulation booklet. Individuals should thoroughly read and understand the appropriate regulations prior to making application or going afield.

New Format Remember to read the Legal Requirements box at the beginning of each species. Information includes: license, hunt number and hunt tag requirements; legal methods of take; legal animal definitions; bag limits and more.

Symbol Look for the new symbol throughout the book, which designates new sections or information.

New Juniors Section Juniors-Only hunts have been moved from their respective species Commission Orders into the new Junior Opportunities section, see page 17.

New Two-part Tags (Commission Rules R12-4-302.J and R12-4-305.E) Hunters will notice that most big game tags now have a detachable possession permit preprinted at the end of the tag. This permit allows for someone other than the tagholder to possess and transport parts of the carcass separately from the part of the carcass which has been tagged. The possession permit is to be filled out and detached ONLY if 1) someone other than the tagholder is going to be in possession of any portion of the wildlife taken pursuant to the tag and 2) the portion of the carcass containing the big game tag is not present. This possession permit is not to be attached to the carcass but simply possessed by the individual transporting the parts.

Transportation of Big Game You are able to authorize an individual to transport your tagged wildlife by filling out the transportation tag printed on the right half of your big game, sandhill crane or pheasant tag. This information must be completed AFTER the wildlife has been taken.

Possession and Transportation of Big Game The law requires any person transporting or in possession of lawfully taken wildlife be able to show proof of legality. With the majority of the fish and wildlife found in the state this is simply your hunting or fishing license. For all big game species, sandhill cranes and pheasants this proof of legality also requires you to show the permit or tag issued to you authorizing the take of the wildlife.

Archery Deer Hunters: Mandatory Harvest Reporting Archery deer hunters are required to report their harvest. Refer to Deer Hunts: Commission Order 2 on page 32.

Changes to Blue Grouse Hunt The open areas have changed, refer to Blue Grouse: Commission Order 18 on page 71. An Arizona Migratory Bird Stamp is no longer required for blue grouse.

The Arizona Game and Fish Department is Moving The Arizona Game and Fish Department is relocating its headquarters building to the Ben Avery Shooting Facility this fall. The new address will be: 5000 W. Carefree Highway, Phoenix, AZ 85086. Continue to call (602) 942-3000 with questions.

Mountain Lion Season Change Mountain lion hunting is restricted in many units during the months of June, July, and August. Units with a multiple bag limit remain open yearlong. See Mountain Lion: Commission Order 10 on page 50 for details on open areas and season dates.

Changes to Arizona Revised Statute There will be changes to ARS 17-332 regarding the transfer of tags, which will take effect after this publication is printed. Please visit azleg.gov for the up-to-date language.

Getting Started Checklist

Welcome to hunting in Arizona. If you don't know where you want to hunt, what you need, or even what you can hunt in Arizona, this section is for you. It is designed to help NEW hunters get started. Following is some basic information you should consider while planning your hunt. The best way for all hunters to prepare themselves to hunt in Arizona is take a Department-sponsored hunter education course (see page 28).

□ Step 1. Where to Start

1. What animal(s) can you hunt?

- Small game: cottontail rabbit, tree squirrel, migratory game birds, and upland game birds like quail.
- Big game: black bear, bighorn sheep, buffalo, deer (mule and white-tailed), elk, javelina, mountain lion, pronghorn antelope, and turkey.
- Predator/furbearer: coyotes, skunks, foxes, raccoons, bobcat, ringtail, weasel, and badgers.
- Other birds and mammals.

2. Do you have a hunting license?

To hunt in Arizona, a license is required. Check out page 10 for a list of our hunting permit and license fees. You can purchase licenses, tags, and/or stamps from any of our 340 license dealers (information is online at azgfd.gov), or Department offices statewide (see page 3 for office locations). For children ages 10-17, see Youth Opportunities, page 17.

3. Did you validate your license?

You must first sign your license. For some species you must also purchase a stamp or stamp privilege for the license to be valid. You will need a tag in addition to a valid license to hunt big game, sandhill cranes, and pheasants. You must also sign all tags before going afield for them to be valid.

□ Step 2. Where/When to Hunt

1. Where do you want to hunt?

Arizona is divided into Game Management Units (GMU or unit) composed of state, federal, military, and private land. Review the GMU maps and boundary descriptions (pages 75-81), and the "Where you can hunt section" (page 82) for more information.

2. When do you want to hunt?

There are several different seasons in which you can hunt a species. Go to individual species to determine their seasons.

□ Step 3. "To Apply or not to Apply?"

1. Don't Apply.

For most small game species, and all predator/furbearer and other birds and mammals you simply need a license and any required validations (for example: stamps) to hunt.

There are also several big game species that you may pursue simply by purchasing an over-the-counter nonpermit-tag in addition to your license. These hunts include archery deer, archery turkey, mountain lion, and fall bear. Deer, mountain lion, and bear have mandatory reporting requirements, so check the information on the corresponding Commission order.

2. Apply.

Permits for most big game species, sandhill crane, and pheasant are issued through a hunt drawing. If interested in hunting any of these species, you must apply for a tag in a drawing; refer to page 10 in this booklet or the appropriate supplement for specific information. The application form on page 15 will help you to apply for both a tag and license. Follow the instructions on the form and DON'T forget to include your correct fee(s).

□ Step 4. Do Your Homework

1. Common violations

Before you go hunting we recommend you read page 92 to be aware of the most common violations. Also, take a look at the Arizona laws and rules beginning on page 96 to learn what you can and can't do in Arizona. If you are witness to a violation please call our Operation Game Thief hotline at 1-800-352-0700 to report the violation. You may be eligible for a cash reward.

2. Care/transport information

Before you go in the field, review our laws and rules to understand requirements to possess and transport wildlife after your hunt. Generally, you need to keep your license on your person and your tag with your carcass at all times during transport. The Department has information available to properly care for your wildlife (see page 3 for regional office locations and phone numbers).

3. You're on your way!

These are just some basic steps to help you start your first hunt. Please read through the rest of the hunting and trapping regulations to better familiarize yourself with hunting in Arizona. If this section fails to answer your questions, contact any Arizona Game and Fish office or visit our Web site azgfd.gov.

Definitions

Big Game: Any of the following species: mule deer, white-tailed deer, pronghorn antelope, elk, turkey, javelina, bear, bighorn sheep, buffalo and mountain lion. All species require a hunt permit-tag, except for archery deer, archery turkey, fall bear, and mountain lion; these species require a nonpermit-tag.

Big Game Drawing: A random computerized lottery drawing to determine issuance of hunt permit-tags. Three separate draws occur each year for various species.

Bonus Point: An accumulated credit that authorizes the Department to issue a Big Game Drawing applicant additional computer-generated random numbers during a draw.

Commission Order: A document adopted by the Commission that does any or all of the following: open, close, or alter seasons and open areas for taking wildlife; specify wildlife that may or may not be taken; set bag or possession limits for wildlife; or set the number of permits available for a hunt.

Department ID: A number used to identify the hunter by name and address, and to accumulate bonus points. A hunter may designate their social security number or a Department issued, computer-generated number.

Game Management Unit: An area established by the Commission for management purposes, commonly referred to as GMU or Unit (see maps on pages 75-81, and boundary definitions on page 101).

Genus: A major category in the classification of animals and plants ranking above the Species level and below the Family level.

HAM: Designates weapon type as handgun, archery, or muzzleloader.

Hunt Area: A game management unit (GMU or unit), portion of a unit, or group of units that is open to hunting by a particular hunt number.

Hunt Number: The number assigned by Commission Order to a hunt where a limited number of hunt permit-tags is available. The hunt number will specify species, dates, boundaries of the hunt area, weapon type, number of available permits, legal wildlife, and who may hunt. Hunt numbers are assigned for any species where hunt permit-tags are issued through a drawing.

Hunt Permit-tag: A tag for a hunt in which a Commission Order has assigned a hunt number. The number of tags is limited by the Commission Order and may only be obtained through a random drawing. A hunt permit-tag along with a license authorizes an individual to hunt a designated species during the designated hunt.

Hunter Pool: A computerized database comprised of individuals wishing to be considered for a restricted nonpermit-tag when a supplemental hunt is authorized. Entry into the hunter pool consists of completing an application (page 53) and submitting it along with the application fee to the Department.

License Dealer: A business authorized to sell Arizona hunting, fishing, and other licenses and stamps.

Nonpermit-tag: A tag for a hunt in which a Commission Order does not assign a hunt number and the number of tags is not limited (over-the-counter tag). A nonpermit-tag along with a license authorizes a hunter to hunt certain game species. A nonpermit-tag may be purchased at Department offices or from licensed dealers.

Muzzleloading Handgun: A firearm intended to be fired from the hand, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Muzzleloading Rifle: A firearm intended to be fired from the shoulder, incapable of firing fixed ammunition, having a single barrel and single chamber, loaded through the muzzle with black powder or synthetic black powder, and a single projectile.

Restricted Nonpermit-tag: A tag issued for a supplemental hunt.

Season: The legally established time a species can be hunted.

Small Game: Any of the following species: cottontail rabbits, tree squirrels, upland game birds (quail, blue grouse, chukar partridge, and pheasants), and migratory game birds (doves, waterfowl, sandhill crane, coots, gallinules, snipe, and band-tailed pigeons).

Species: A naturally existing population of similar organisms that usually interbreed only among themselves.

Stamp: A form of authorization in addition to a license that allows the license holder to take wildlife specified by the stamp. The form of the stamp may be an actual stamp affixed to the back of the license, a printed privilege on the license itself, or a printed privilege on a separate license form.

Supplemental Hunt: A season established for a particular species by the Commission for the following purposes: take of depredating wildlife, take of wildlife under an Emergency Season, or take of wildlife under a population management hunt. The Commission through Commission Order shall approve a season or seasons and prescribe a maximum number of restricted nonpermit-tags for specific species that the Director may authorize for issuance.

Trapper Registration Number: A trapper's registered number shall be issued by the Department and entered upon the trapping license at the time of purchase. A trapper's registration number is not transferable. All traps shall plainly be identified with the trapper registration number or the trapper's name and address.

Sportsmen ethics and responsibilities

Please observe the following when using private, State Trust or public lands:

- Do not drive on wet and muddy roads where damage to the road is likely.
- You may not operate a motorized vehicle cross-country except for the sole purpose of retrieving downed big game on State Trust land (A.R.S. 17-454).
- Do not hunt near livestock waters where livestock is nearby; harassment of livestock is illegal.
- Treat the lands as if they were yours; any damages to the land or vegetation can take decades to recover! Certain damages to the lands or improvements are subject to prosecution (A.R.S. 13-1601 through 1605).
- It is misdemeanor trespass if you cross private property that is posted no trespass (A.R.S. 13-1501 through 1508).
- It is illegal to camp within 1/4 mile of livestock and/or wildlife watering sources (A.R.S. 17-308).
- Remember, you must have a valid hunting or fishing license and be actively hunting or fishing, or have obtained a use permit from the State Land Department, to legally use State Trust lands unless using a public easement (A.R.S. 37-501, 502; R12-5-533D).
- Be respectful of others. They possess the same rights as you to use the lands.

If you observe vandalism violations, please call 1 (800) VANDALS. To report hunt violations, call the Operation Game Thief Hotline 1 (800) 352-0700; all calls are confidential. To learn more about the Arizona Game and Fish Department's Heritage Access Program or to get involved, call (602) 789-3624.

Ethical hunting is everyone's business

Tree stands and blinds near waterholes can be exciting places to encounter wildlife and are perfectly legal tools to aid in your hunting experience and enjoyment. However, if you have ever hunted from a tree stand or blind on a waterhole, you've probably encountered other hunters wanting to hunt the same area. You may even have had a negative encounter with another hunter when deciding who was going to stay and hunt. Here are some important tips, ethically speaking, to keep in mind when planning to hunt around a waterhole on public land:

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access.
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first.
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt.
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present.
- Hanging a tree stand near a waterhole does not entitle a person to exclusive hunting rights to that waterhole.

“First Come – First Served” is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or disorderly conduct can result in citations, arrests and/or jail time. Please do not allow yourself to get into a situation like that – ethical hunting is everyone's business.

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags or stamps. A Class H Three-Day Non-resident Hunting License is not valid for big game.

YOUNG HUNTERS – Anyone 14 years of age or older needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may take big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid hunt or combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags, nonpermit-tags and stamps.

Where to Buy Licenses

Arizona hunting licenses can be obtained from license dealers throughout the state, from any Arizona Game and Fish Department office, online at azgfd.gov or by calling (800) 705-4165.

When you buy a license online, you will receive your actual license number upon completion of the transaction; this number may be used on a drawing application. The regular paper license will be mailed within one business day.

If you are applying for a big game draw or bonus points, you may purchase your general hunt

or combination hunt and fish license while you are entering your application for the draw. If submitting a paper application, the license will not be mailed until the draw is finalized. Family Licenses, Super Conservation Licenses, and Child Hunting and Combination Licenses may not be obtained through the draw. Other licenses with hunting privileges may be purchased separately online.

Lifetime License Holders

If a lifetime license holder changes resident status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as set forth by law. Consult A.R.S. 17-335.01 for additional information.

Residency Requirements

A resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

Three-Day Non-Resident License

A Class H, Three-Day Non-resident license, valid for the taking of small game, fur-bearing an-

imals, predatory animals, nongame animals, nongame birds, upland game birds and migratory game birds, except ducks, geese and swans is available at all license dealers. This license is not valid for hunting big game nor is it valid when applying for big game hunts through the draw process.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags and nonpermit-tags may be replaced for a fee at any Arizona Game and Fish Department license dealer. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for a description of this permit. Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to new regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (202) 927-8320, or download an application from the ATF Web site at www.atf.treas.gov.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags. Nonpermit-tags may be purchased directly from Department offices or through license dealers.

Qualifications

Individuals wishing to participate in a drawing or to purchase bonus points must apply in writing using the Hunt Permit-Tag Application Form or online at azgfd.gov.

Each applicant must possess a valid license for the year in which the hunt will take place or possess a lifetime, pioneer or disabled veteran's license. Non-resident Three-Day Class H licenses may not be used in applying for big game hunt permit-tags. **Juveniles applying for big game hunts must be licensed.** Applicants not licensed for the year in which the hunt will take place must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued to you and you will receive a refund for the other license fees submitted. If submitting a paper application, the license will not be mailed until the draw is finalized. If you apply for multiple genera by submitting online applications, only one license application is required.

Applying For A Hunt

Paper applications for hunt permit-tags must be made on Hunt Permit-Tag Application Forms available at Department offices, Web site, and license dealers. Please use the current year's application form, that is WHITE in color. Do not use any previous year's application form as certain important changes have been made this year. Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(D). Use standard blue or black ink (no gel ink). For most draws, applications can also be made online at azgfd.gov.

No more than four people may apply in one envelope. All applicants in a group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L).

No more than one genus may be included on each Hunt Permit-Tag Application Form. Use a separate form and envelope for each genus of wildlife you wish to hunt. You can list a general hunt as your first choice and another weapons type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapons choices. Do not cut or alter application form.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of Arizona Game and Fish may prevent the permit holder from using the permit. In such situations, Arizona Game and Fish disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances as stated in R12-4-107.

Fees

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting license, if a license is requested. Be sure to enclose license fees for each person who is applying on the application for a hunting license.
3. **Discounted hunt permit-tag fees are for "Juniors-Only" designated hunts. If a person is applying for a Juniors-Only hunt and a regular hunt on the same application, the higher of the tag fees must be enclosed.**

Each payment enclosed with a hunt permit-tag application shall be made by certified check, ca-

shier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted.

One personal check or money order can cover all fees for the application.

The permit and license fees are specified in the fee schedule on pages 10-11. The hunt permit-tag fees on page 10 include the non-refundable application fee.

A \$25 fee will be charged for each returned or dishonored check.

Submitting Applications

Applications may be submitted online at azgfd.gov. Applications (except first-come, sandhill crane, pheasant, and raptor applications) may also be hand-delivered to Department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman or Yuma. Mailed applications must be sent only to the Department's Phoenix Office at P.O. Box 52002, Phoenix, AZ 85072-2002. On deadline days, Department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 7:00 p.m., (MST). Drop boxes are locked promptly at 7:00 p.m., (MST). All applications must be received by the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-Tag Application Schedule on page 16. Postmarks don't count.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens To My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If there is an error and your paper application is received by the Department on or before Wednesday, May 30, 2007, we will make three attempts within a 24-hour period to notify you by telephone if a phone number is provided. If we are able to contact you by phone and our customer service representatives can correct the application at that time, they will do so and enter the application in the Draw. If an error cannot be corrected by phone, we will still attempt to notify you of the error and advise you to re-submit your application. The applicants

Draw Information

may then prepare a new Hunt Permit-Tag Application Form, include the appropriate fees and re-apply by the scheduled deadline date.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What If I'm Not Drawn?

Please use one of the methods (telephone or Internet) described on page 5 to access draw results. These methods of access shall serve as the official notification of draw results.

If you submit a paper application, the fee for your hunt permit-tag will be refunded. Overpayments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-Tag Application Form. Application and license fees will not be refunded. You will not be issued or charged for more than one license.

If you or a member of your group elected to donate his/her fees or a portion thereof, the donation will not be refunded. If an applicant

has applied for a hunting license and is unsuccessful in the draw, his/her money for the license fee will not be refunded. A hunting license is required to apply in a drawing. If an application is rejected and a license has been requested, the license will not be issued.

You will be awarded bonus points if eligible to receive them.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis online only as specified in the hunt permit-tag application schedule on page 16. When the bag limit is one per calendar year, an unsuccessful applicant may re-apply for remaining hunt permit-tags in unfilled hunt areas.

Purchasing A Bonus Point Only

In the event you do not wish to participate in a big game drawing for deer, turkey, javelina, bighorn sheep or buffalo but still wish to accumulate bonus points for these genus, you may "purchase a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose

any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may purchase only one bonus point per genus per drawing.

In order to purchase a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. Your application will **NOT** be entered into the draw and you will not receive a refund on the license fee or the application fee. **Do not** include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point purchase costs you only the license fee (if needed) and the \$7.50 application fee per applicant.**

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

How to Submit an Online Application

You may now apply for big game hunts and bonus points online at azgfd.gov. There are many advantages in submitting an online application. By using the online method, you can meet deadlines without mailing applications or traveling to a Department office to drop off applications. The possibility of your application being rejected is drastically reduced due to the fact that the online application program will prompt you to accurately complete your application.

Additionally, at the time of application you will only have to pay for the application fee, the license fee (if you have not previously purchased a license for the year in which the hunt takes place) and any donations you might wish to make to the Big Game Habitat Fund. Hunt permit-tag fees will be charged after the drawing is completed if you are successful in the draw. This eliminates the requirement to pay your tag fees in advance and/or issue a refund if you are not successful in the draw.

If you are applying for a bonus point, you are charged only the application fee and the license fee (if needed). A license is required to apply for a hunt permit-tag or a bonus point. A valid credit or debit

card (Visa, MasterCard, Discover or American Express) must be used when applying online.

Please be aware that if you are successful in the draw and the credit or debit card used for the application is not approved for the amount of the required fees after the draw, your application will be rejected. The Department is not responsible for any overdraft charges incurred due to insufficient funds. If your credit or debit card is lost or stolen after using it to apply online or if it should expire prior to the draw, you may update your credit or debit card information online or you may call the Department's online vendor at the following toll-free number 1 (888) 220-1203, and provide a valid credit or debit card number prior to the completion of the draw. Even if you are successful in the draw, your application will be rejected if payment on your credit or debit card is declined.

To apply online, simply log on to the Arizona Game and Fish Department Web site at azgfd.gov, place the cursor on "Big Game Draw" located on the green bar on the main Web page and follow the step-by-step instructions. Please have your hunter list completed with all the required information for each hunter prior to logging on to apply.

Completing Your Paper Hunt Permit-tag Application Form

R12-4-104 explains application and drawing procedures in detail, see page 99. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers circled on the SAMPLE form, use it to assist you in completing your form.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. **YOU CANNOT MIX HUNT SERIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES.** You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. Do not repeat any choices. You may only apply for either a bonus point or a valid hunt number for any genus, NOT both.

2 Enter your correct date of birth (mm/dd/yyyy).

3 Enter your Social Security Number. In accordance with Federal Requirement, 42 U.S.C. Section 666 (A)(13) and A.R.S. 25-320 (N) and 25-502 (K), you must provide your Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. If you are not a U.S. citizen you must write "NOT US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number prior to submitting and enter it on the application. See #6. You may obtain a Department issued ID number by calling (602) 942-3000 during business hours.

4 Check the appropriate resident or non-resident box. Resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application, or a member of the Armed Forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

5 Enter your valid Arizona hunting license number for the year in which the hunt for which you are applying occurs. The hunting

license number consists of two letters and six numbers. If you don't have a license, see "Completing Your License Application Form," page 15. You must purchase a license through the draw by completing a License Application Form and submitting payment with each of your applications if you are not licensed.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is for those individuals who choose to use a Department issued I.D. Number instead of a social security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department.

7 Enter your correct full name (last name first), home mailing address, city, state and zip code.

8 The Department will make three attempts within a 24-hour period to notify you of errors in your paper application if the application is received on or before Wednesday, May 30, 2007. If you wish to participate in

Hunt Permit-tag Application Schedule – Fall 2007

YOUTH

OPPORTUNITIES

Welcome to the new Youth Opportunity section in the Arizona Game and Fish Hunting and Trapping Regulations. This section is designed to teach youth what they need to know about hunting: how to get started; what hunts are available for youth; and what licenses are required. We also included some fun stuff just for kids. We want to make hunting an enjoyable experience for Arizona's youth. For more information visit azgfd.gov.

Arizona provides many opportunities for youth to get involved in hunting. There are specific Juniors-Only hunts, hunter education courses, archery and sporting clays programs. You will find information about these opportunities in this section.

Special Youth Opportunities

Robbins Butte Dove Hunt

Robbins Butte Wildlife Area (RBWA) is about seven miles southwest of Buckeye and comprises over 1600 acres. RBWA was purchased for its' potential as waterfowl habitat. Three ponds were built in 1952 and by 1957 an estimated 30,000 ducks used these ponds. However, increased demand for agricultural water coupled with invasion of salt cedar trees led to dramatic waterfowl declines by 1960.

In response, the Department purchased the adjacent Black Butte Farm to expand RBWA. This land contained some of the last pristine honey mesquite bosque remaining along the lower Gila River. This acquisition protected the bosque, and provided cultivated grain crops for small game. The combination of wildlife food crops, natural foods and nesting habitat now attracts a combined average of 5,000 breeding white-winged and mourning doves each year.

A portion of RBWA is managed strictly for junior hunters. The "juniors only" hunt in early September gives hunters a chance to pursue doves without adult competition. Hunters under 14 may hunt without a license when accompanied by a licensed adult (each adult can bring up to two

A dove hunt at Robbins Butte is one opportunity available to youth.

young hunters). Shooting stations are assigned on a first-come, first-served basis. Participants must check in prior to hunting and check out when finished. Plan to arrive by 4:30 a.m. for a safety briefing. Afterward, visit the check-in tables and enjoy a free breakfast provided by the Chandler Rod and Gun Club. Oh, and don't forget to bring plenty of shells. This area can produce lots of chances to fill your bag.

Top graduates from the Department's Hunter Education courses also participate in a special youth pheasant hunt.

Pheasant Hunt

Arizona's top hunter education graduates are randomly drawn each year for the AZGFD Youth Pheasant Hunt. While taking a hunter education class instructors identify their top students and submit them for this random drawing conducted in December. About 500 kids are nominated each year and only 80 lucky hunters are drawn and invited to participate in an all expense paid youth pheasant hunt in Prescott Valley.

Young hunters shoot sporting clays and trap as well as hunt behind top quality pointing dogs that look for pheasants. It's an exciting moment when a cackling rooster pheasant takes flight in front of the young hunters.

A scrumptious lunch is provided for every one as well as a class on how to prepare rooster pheasants for the home table. This has proved to be a very positive event for both parents and young hunters. By attending Arizona's top-notch hunter education class maybe your young hunter might be one of the lucky ones drawn next year.

Send Us Your Stuff!

Dear Arizona Game and Fish Department,

I have had just such a fantastic time hunting for pheasant. I had never hunted before. And I was always extremely recoil shy. But now I have a bird and a very proud family. I can't wait to go javelina hunting.

Melissa Wood

Do you want to share your hunting experience with others? Do you have photos or stories from your first hunt or any time you've been afield? If so, we encourage you to send your photos, letters and stories (duplicates only) to the Arizona Game and Fish Department for possible future use in a regulation booklet or in our e-newsletter "Hunting Highlights." Send us your name, age, where and when you went hunting, address, phone number and any other information you think is important. We look forward to hearing from you.

The Department offers hunter education classes to those new to hunting or to people wanting to learn more about firearms and gun safety. For more information, see page 28.

Archery in the Schools Program (AIS)

The Arizona Game and Fish Department offers a popular Archery in the Schools Program based on a national physical education curriculum introduced in 2003. The core content covers archery, history, safety, techniques, equipment, mental concentration, and self-improvement. In addition,

the curriculum provides interesting and creative possibilities for integration with core content in social studies, mathematics, visual arts, history, and English/language arts. The program provides school PE programs with training, equipment and curriculum, to introduce youth to archery. For more information, contact Denise Raum at (602) 789-3567.

Become a Mentor

If you are interested in becoming a youth or adult mentor for the Arizona Game and Fish Department's hunter recruitment-related activities, such as small game camps, the First Shots Program or the Trailblazer's Program, please visit the Department's Web site at azgfd.gov. You can also call the Department's Hunter Recruitment and Retention Coordinator at (602) 942-3000.

The Arizona Game and Fish Department is providing this section on juniors-only hunting to highlight the hunts for which junior hunters (defined below) have exclusive application opportunity. Some of these hunts have reduced fees. But juniors are not only limited to these hunts. Juniors may apply for other season hunts (beginning on page 32), but must include the higher fees when applying. If a junior chooses to apply with an adult, they are not eligible to apply for the hunts listed in the juniors-only seasons.

What is a Junior?

There are several different categories of “Junior” in Arizona. All of the definitions are listed here:

- A person under 14 may hunt wildlife other than big game without a license when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.
- No one under the age of 14 may take big game without having completed a hunter education course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10-13 years of age must have in their possession a valid hunting license, a valid Hunter Education Course completion card, plus any required permit tags or stamps.

- Trapping: A trapper under the age of 14 is not required to purchase a trapping license, but shall obtain a registration number from any Department office before taking wildlife with a trap. A trapper’s registration number is not transferable.
- Anyone up to and throughout the calendar year of their 20th birthday may purchase a youth combination hunting and fishing license.

JUNIORS-ONLY HUNTS: Eligible hunters: Persons are eligible to participate up to and throughout the calendar year of their 17th birthday, provided that persons between the ages of 10-13 have satisfactorily completed a hunter education course that is approved by the Director as per ARS 17-355 (C).

Transfer Tags

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children.

A parent or guardian to whom a big game permit or tag is issued may transfer the unused permit or tag to the parent’s or guardian’s minor child if:

- The minor child is between 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of the transfer; and
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by date of transfer.

See R12-4-121 on page 106 for more information.

A person may transfer his or her big game tag for use by a child with a life threatening medical condition. Consult ARS 17-332 on page 97.

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions. You may contact the following organizations to arrange for a donation.

- Hunt of a Lifetime at www.hoalarizona.org.
- Catch-A-Dream at <http://catchadream.org>.

Hunter Education

Hunter Education programs across the country are designed to continue the hunting heritage by developing safe, responsible, ethical and knowledgeable hunters. Hunting is a hallowed family tradition that teaches respect for life, each other and nature. It teaches accountability and responsibility. If you are a new hunter, or want to learn about wildlife conservation, the environment, firearms and gun safety, our hunter education courses can help. The program will also benefit experienced people who want to become more proficient hunters and conservationists. While hunter safety is the program focus, hunter ethics, wildlife management, survival, and other important topics are also covered. Hunting is safe, and community and family sustaining. Enroll your family in our hunter education program today. For more information, visit azgfd.gov or call (602) 789-3235 or (602) 789-3236.

Course information

Everyone that is at least 10 years old is encouraged to participate in a Department hunter education course. Taught by volunteer instructors, a modest fee to offset student expenses for ammunition and other materials is usually assessed at the first class. The Department offers an introductory streamlined beginners course requiring approximately 9 hours in the class room with a field day consisting of another 4 to 6 hours. The Department also is in the process of developing an independent study online hunter education course that will be available this summer. More detailed classes are also available requiring approximately 20 hours, along with a combination course for

bow hunters that is approximately 28 hours. These class room courses are generally offered during weekends and week nights across the state with the field day conducted at a local shooting range.

At a minimum, subjects covered include an introduction to hunter education and conservation and other topics:

- Safety, responsibility, hunter education funding sources.
- Behaviors of a responsible hunter, preventing accidents, planning and preparation, clothing, topographic maps and compasses, survival skills, coping with weather related conditions and basic first aid.

- Wildlife conservation, the hunter's role in wildlife conservation, habitat management, wildlife identification.
- Basic hunting and shooting skills, good marksmanship and accuracy, dominant eye, sight alignment, sighting-in a rifle, rifle firing techniques, shooting positions, shotgun shooting, hunting strategies, vital shots and approaching downed game, field care of game, hunter responsibility and ethics, the five stages of hunter development, North American Model and market hunting.
- Arizona's Hunting Regulations – Develop an understanding of the most often violated Arizona game laws, rules and regulations.

State wildlife agencies started hunter safety programs in 1949 and have certified over 35 million people since then. While many misconceptions exist about the dangers of hunting, the sport is comparatively much safer than many athletic activities. Thanks to hunter education programs, hunting-related shooting incidents have declined nationally by 31 percent over the past 10 years.

New online curriculum

Open to all aspiring and experienced hunters, the Department will be rolling out a distance learning online curriculum that will be available through the Internet late summer 2007. Just like the classroom courses however, a final (proctored) exam will be required prior to the student being allowed to participate in a field day before course graduation.

Ten Commandments of Hunting Safety

1. Treat every firearm as if it is loaded. Never assume a firearm is unloaded.
2. Always control the direction of your firearm's muzzle. Never pull a firearm toward you by the muzzle.
3. Be sure of your target, the area to your target, and what is beyond it. Another hunter could be in front of your target or behind your target.
4. Be sure the barrel and action are clear of obstructions and that you have only ammunition of the proper size for the firearm you are carrying.
5. Unload and case firearms when not in use. Leave the actions open. Firearms should be carried unloaded and in protective cases when in a vehicle.
6. Never point a firearm at anything you do not want to shoot. Never allow horseplay with or around a firearm.
7. Never climb a fence or tree, or jump a ditch or log with a loaded firearm. Take a moment and unload the firearm first.
8. Never shoot a bullet at a flat, hard surface or water. During target practice, be sure that your backstop will stop the bullet.
9. Store firearms and ammunition separately and keep them out of the reach and sight of children and careless people. Some states require firearms and ammunition to be locked up in different areas! It is a good idea.
10. Never use alcoholic beverages or drugs that affect your behavior before or while shooting with a firearm or bow.

HUNTER ORANGE

*While there is no requirement for hunters to wear orange in Arizona; the Department **STRONGLY** suggests that all hunters adopt this valuable safety precaution to help others see and identify them in the field.*

Welcome to Big Game Hunting in Arizona

Arizona has 10 species of wildlife designated as big game by state statute: mule deer, white-tailed deer, pronghorn, elk, turkey, javelina, bighorn sheep, buffalo, bear, and mountain lion. If you also consider that Arizona is occupied by two recognized subspecies of bighorn sheep (Rocky Mountain and desert) and turkeys (Gould's and Merriam's), there is ample evidence of the diversity of Arizona's big game, and the opportunities a hunter has to pursue. While the diverse habitats in Arizona are home to a lot of different species, no individual species is particularly numerous. Consequently, most big game hunts have a limited number of permits for which you must be drawn to participate.

For the first time, elk and pronghorn application information was provided earlier this year. The draw for elk and pronghorn is already complete and you should know if you received one of these tags. This knowledge should help you determine if you wish to participate in another hunt, and if so, for which deer, turkey, javelina, bighorn sheep, and buffalo hunts to apply.

For the second year, the Arizona Game and Fish Commission authorized a limited number of fall javelina permits for which you may be drawn. If you didn't take a javelina in the spring, you are eligible to apply for these hunts, and you may wish to apply for one that will com-

plement another hunt in which you may participate in this fall. Archery javelina seasons coincide with the first 10 days of the archery deer season in most units, HAM javelina seasons coincide with the first 10 days of the small game season, and general javelina seasons coincide with a general deer season. Plan carefully and you may have the opportunity to pursue multiple big game animals during a single hunt, especially if you also choose to hunt bear or mountain lion.

Compared with last year, deer hunting opportunity has increased somewhat throughout the state, and a few more bighorn sheep tags are available. There are also moderate increases in turkey permits.

The Commission authorized the continuation of the population management seasons for buffalo and elk in Units 12A and 12B. If you are fortunate enough to be drawn for general deer in Units 12A or 12B, you will have the opportunity to purchase an elk tag, and in Unit 12A, a buffalo permit to harvest one of these animals. Keep in mind, these restricted nonpermit tags are offered in areas where the named wildlife are not abundant, so your chances of success are small.

So peruse these pages, and select the seasons that meet your desires. Good luck in the draw. Should you need any assistance, feel free to contact any Department office (see contact information on page 3).

For Archery-Only hunts, you may purchase a nonpermit-tag from a license dealer as prescribed in R12-4-114.

All archery hunters must contact the Arizona Game and Fish Department office in person, or by telephone (1-866-903-DEER [3337]) within 10 days of taking a deer (pursuant to R12-4-308).

The U.S. Forest Service is concerned about road damage occurring during periods of very wet weather. To prevent road damage, provide for public safety, and protect natural resources, the Forest Service may temporarily close some of its roads to motor vehicle use when soils are saturated and damage is occurring. Hunters should call the appropriate Forest Service office in which their hunt occurs or visit the Forest Service Web site at www.fs.fed.us/r3 and chose the forest they will be visiting. Once there go to the current conditions page for the latest road information.

HUNT ARIZONA BOOK

Hunt Arizona is a yearly compilation of big game hunting statistics. The publication includes survey and harvest statistics for a five-year period as well as information on distribution, life history, and behavior of big game, small game and other wildlife. This 184-page book is available at all Department offices for \$6.

The book also is available for free online at azgfd.gov/draw.

Antlers and mounts wanted

The Arizona Game and Fish Department is accepting donations of big game mounts, antlers and other wildlife-related decorative items you no longer want. These donated items will be added to the other "wildlife assets" that the department has obtained through other means, such as law enforcement seizures, pick-ups and vehicle collisions. These assets are publicly sold annually, with the generated funds going to support the department's Law Enforcement Program. Such funding enhances the department's ability to purchase field equipment and make training available for our officers, which aids them in the apprehension and conviction of wildlife violators. Contact the Law Enforcement Branch for details at (602) 789-3303.

Population Management Hunts

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (page 105).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department

Dec. 31, 2007. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).

- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$7.50 application fee (note: one \$7.50 application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department

will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.

- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

**Do not include this form with a Hunt Permit-tag Application Form
(See R12-4-115 on page 115)**

Have you:

- Filled in all the blanks?
- Enclosed the \$7.50 application fee?
- Signed your application?

Condor Country: Why Non-lead Ammunition?

Lead poisoning is the leading cause of death in condors and the main obstacle to a self-sustaining condor population in Arizona. Fourteen condors have died from lead poisoning and 300 cases of lead exposure have been documented since 1999.

CHRIS PARISH/PEREGRINE FUND

Lead bullet fragments remain in game carcasses and gut piles left in the field by hunters. These X-rays show hundreds of lead fragments (fragments appear bright white in X-ray) in a deer carcass and gut pile. Condors are group feeders, so several birds can ingest fragments from one carcass or gut pile containing lead.

Studies have concluded that lead shot and bullet fragments found in game carcasses and gut piles are the main source of lead in condors. To read these studies and for more info on non-lead ammunition and the condor program, visit: azgfd.gov/condor.

The Arizona Game and Fish Department and our partners ask you to be part of the solution by using non-lead ammunition when hunting in condor country (Game Management Units 9, 10, 12A, 12B, 13A, and 13B).

These sportsmen's groups ask you to use non-lead ammunition in condor range:

- **Arizona Deer Association**
- **Arizona Elk Society**
- **Arizona Antelope Foundation**
- **Arizona Desert Bighorn Sheep Society**
- **Arizona Chapter of the National Wild Turkey Federation**

Hunters drawn for hunts in condor range will be mailed more information before their hunt.

Hunters are helping

The majority of hunters on the Kaibab Plateau and Arizona Strip have used non-lead ammunition to help endangered California condors since 2005.

These voluntary efforts have reduced the amount of available spent lead ammunition by 50 percent within the core condor range.

The hunting community should be proud of this accomplishment, but we still need more hunters to help.

Hunters who use non-lead ammunition in condor range carry on sportsmen's proud tradition of wildlife conservation.

Hunters praise non-lead bullets

100 percent copper bullets have superior knock-down power, are less toxic, and do not fragment like lead. 93 percent of hunters say that non-lead bullets perform as well as or better than lead bullets on game.

Mexican Wolf Blue Range Reintroduction Project

Hunters have played a significant role over the past 100 years in recovering and reestablishing wildlife populations across our country, ranging from white-tailed deer to wild turkey to Canada geese. The Arizona Game and Fish Department is asking hunters to step up once again to assist in recovering a wildlife species to its historic range in east-central Arizona.

If you are hunting this year in Unit 1 or 27 or surrounding areas, please be aware that Mexican wolves may be present. Over the past several years numerous wolves have been illegally shot, causing significant setbacks to the reintroduction project. It's possible that many of these shootings were cases of mistaken identity—that the shooter believed the target was a coyote. It can be

difficult to distinguish wolves from coyotes, especially if the light is bad, the sighting is brief, the animal is far away, if it's a juvenile wolf or a wolf in its summer coat.

Please read the following identification material and become familiar with the regulations regarding interactions with Mexican wolves.

Arizona Game and Fish Department

Know the Difference

Coyote (*Canis latrans*)

Ears are prominent, pointed, relatively long.

Muzzle is slender and pointed.

1-2 feet tall; 4 feet long with tail;
Front paw, 2.5 inches long x 2 inches wide

- Moves with more bounce and bounding
- Nose is more pointed; face is mostly one color
- Usually displays skittish behavior, tends to flee immediately
- Legs and feet are smaller, more delicate
- Weighs 20 - 35 pounds
- Fur color is very similar to wolves:
 - Grizzled gray, rust or buff
 - Rarely white or black

Mexican Wolf (*Canis lupus baileyi*)

Ears are more rounded, relatively short.

Muzzle is large and blocky.

2-3 feet tall; 5 feet long with tail;
Front paw, 4.5 inches long x 3.5 inches wide

- Moves in a stiff and unique gait
- Nose is broad; face often has markings
- Sometimes displays curious behavior and may not flee as quickly
- Legs are longer, more lanky; feet are larger
- Weighs 50 - 80 pounds
- Fur color is very similar to coyotes:
 - Grizzled gray, black, rust or buff
 - Not all white or all black
- Not all wolves have radio collars

Helping wolves, humans coexist

Mexican wolves are protected by the Endangered Species Act under a special rule which allows people to scare away or harass wolves in an "opportunistic and non-injurious" manner. This means you cannot seek out, pursue, or attract wolves, nor can you physically injure a wolf in any way. However, you can scare a wolf away by making loud noises or by throwing rocks in the animal's direction.

Keep in mind that few people have had to frighten Mexican wolves away, and no one has been injured by them. Most report that hearing or seeing wolves has not affected the success of their hunt, and say a sighting has actually added to the quality of their experience. About 50 wolves roam nearly 10,000 square miles of the recovery area on the Fort Apache Indian Reservation and on the Apache-Sitgreaves and Gila National Forests of Arizona and New Mexico.

A person who violates the rules pertaining to wolves is subject to prosecution. Criminal penalties are up to one year in jail and/or a fine of up to \$50,000, and/or a civil penalty of up to \$25,000.

If you have any questions regarding wolves, call the Pinetop office of the Arizona Game and Fish Department at (928) 367-4281.

Ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if people at campgrounds feed wolves.

If a wolf should approach you, raise your arms and look as big as possible. Yell or throw rocks to scare it away. Back away slowly—never run.

Some other tips

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Keep pets close to you. Do not leave them unattended or allow to run free.
- Never feed wildlife—including wolves.

Welcome to Small Game Hunting in Arizona

In Arizona you can find opportunity in one form or another to hunt every single day of the year. Arizona provides great diversity for the hunter. This section covers hunting seasons for small game and other wildlife. Even though populations of wildlife in recent years have been reduced because of drought, a hunter can still find areas of good animal abundance to occupy ample hunting days in the field. Following is a general forecast for the popular species covered in this section.

Gambel's quail, dove, and cottontail hunting should vary from poor to good in Arizona during the 2007-08 season, dependent upon

population carry-over from the previous year and local precipitation patterns. Scaled quail were likewise negatively impacted by drought, but some fair hunting will occur in localized areas. Mearns' quail abundance is driven by summer monsoon patterns.

While winter precipitation was below normal statewide, carry-over from the previous year, and some spring precipitation helped mitigate negative impacts to some populations of small game. Tree squirrel hunting will likely be fair to good in portions of northeastern Arizona, but will only be poor to fair in remaining squirrel habitats. Hunters can expect to find ample, and in some cases year-round, opportunities

for predators and furbearers, including coyotes, bobcats, and gray fox. Remember these predator populations will be influenced by prey abundance. There is a lot of opportunity, challenge and excitement relative to these species, especially when it involves predator calling.

As with any season for these species, it is imperative the hunter does his or her homework. Pay particular attention to precipitation patterns (www.wrh.noaa.gov/psr/DroughtPage.php) and do some on-the-ground scouting if possible. Good luck, and we hope to see you in the field this fall. For more information on these species, seasons, and hunting regulations, please visit azgfd.gov.

Where, When and How Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 31-72). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** manages 16 percent of the state. Call (602) 417-9200 for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 104) delineates the rights and privileges of sportsmen and landowners or operators as regards state lands. Note that “State Land - No Trespassing” signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see

R12-4-110, paragraph H, page 105. The State Land Department is at (602) 542-4621.

- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 106.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See below for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 75-81 show hunt unit boundaries, which are described in detail in R12-4-108 on page 101. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 31-72).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 107). For special requirements in state wildlife areas, see R12-4-802 (page 112).

ROADS AND VEHICLES - It is illegal to take wildlife or to discharge a firearm or shoot any other device from a vehicle. A vehicle is any device designed to carry a person - all terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. (Requirements for waterfowl are different - see Migratory Bird Regulations.)

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Loaded weapons may be carried only in hunting zones when actually hunting. A loaded weapon is defined as ANY round in the weapon, including the magazine.
2. Weapons in the vehicle must be unloaded and cased.
3. Target shooting or the discharge of a weapon except to hunt is not permitted.
4. Motorized vehicles may operate on designated public roadways **only** and must be “street legal” ie. licensed, insured and equipped to operate on state highways.
5. Pits, permanent blinds and stands; trail or scouting cameras; and baiting are prohibited.
6. The use or possession of alcoholic beverages while hunting is prohibited.

7. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day’s hunt.
8. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

More information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge at:

Hunting on Military Reservations

Hunters desiring to hunt on military reservations are advised to contact the specific installation for current regulations prior to going afield. Hunters are also advised that increases in United States Force Protection may result in hunt cancellations at any time and with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters drawn for military reser-

vation hunt permit-tags will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department.

U.S. Army Yuma Proving Ground: The U.S. Army Yuma Proving Ground is open to hunting in accordance with U.S. Army regulations to properly licensed hunters holding a valid Yuma Proving Ground permit. Except for bighorn sheep, restricted areas are closed to the taking of wildlife. Hunting is allowed only in designated hunting areas. For information write: U.S. Army Yuma Proving Ground - Bldg. 105, Attn: Hunting Program, 301 C. Street, Yuma, AZ 85365-9498 or call toll-free 1 (877) 788-HUNT or (928) 328-2148, or visit www.yuma.army.mil/hunting_program.htm

Barry M. Goldwater Range: Entry into portions of units 40A, 40B, 46A and 46B is subject to military closure and requires coordination with the Barry M. Goldwater Range for hunting access. A) Weapons Impact areas on the Air Force side of the BMGR including the East Tactical Range and Paradise Well area are closed to entry at all times. All persons desiring to hunt outside Weapons Impact areas but within the boundaries of the BMGR located in Units 40A and 40B or to cross the BMGR to access Units 46A and 46B are required to sign a Hold Harmless Agreement and obtain a Special Use Range Permit. More information about the Special Use Range Permit may be obtained by calling the 56th Fighter Wing Range Management Office Public Affairs person at (623) 856-8516 or (623) 856-8520. B) Access to the Air Force's one public recreation area (Area B) or the Marine Corps side of the BMGR does not require a Special Use Range Permit but still requires a Recreational Permit that can be obtained by calling: the Marine Corps Air Station in Yuma at (928) 269-7150; the Bureau of Land Management, Phoenix Field Office at (623) 580-5500; the Cabeza Prieta National Wildlife Refuge at (520) 387-6483; the Public Lands Information Center at (602) 417-9300; or the Gila Bend Air Force Auxiliary Field at (928) 683-6200.

Florence Military Reservation: The Florence Military Reservation (training areas B and D: the areas north and south of Cottonwood Canyon Road) in Unit 37B is subject to short term closures due to military operations, including live fire operations, and requires coordination with the Florence Military Reservation for hunting access. For specific closure dates or any other access concerns, contact the Florence Military Reservation at 602-267-2062. A map of the Florence Military Reservation is located on the Arizona Game and Fish Department's Web site, azgfd.gov (type Florence Military Reservation in the search box).

Wilderness Areas

The Wilderness Act of 1984 and the Desert Wilderness Act of 1990 designated large portions of Arizona as wilderness. Hunters should be aware that this may influence their hunt. Except where specifically permitted, all forms of motorized travel are prohibited. Hunters should be prepared for remote and primitive conditions. For additional information regarding wilderness restrictions, hunters should contact the Bureau of Land Management, the U.S. Fish and Wildlife Service, or the U.S. Forest Service, as appropriate for the area of interest.

Bureau of Land Management

Generally, BLM lands in Arizona are open to hunting. Check with the appropriate office for current conditions.

Shooting Within City Limits

Arizona State Law (A.R.S. § 13-3107) prohibits discharge of firearms in the incorporated limits of any municipality unless excepted by local ordinance. In addition, some city or town ordinances also prohibit discharge of other implements. Check with your local police Department for information before shooting inside incorporated limits.

State Trust Land

This is the sign used to delineate the boundaries of the state trust lands for hunters, anglers, and trappers. Some of the older signs may still be posted. However, the new sign as shown below, should be followed by sportsmen as it effectively replaces the older state trust land sign.

Tree Stands and Blinds

Tree stands and blinds can be effective and perfectly legal tools to aid in the taking of wildlife. However, please take into consideration the following before hanging a tree stand or setting a blind:

- It may be unlawful to cut any trees or branches while hanging tree stands or setting blinds.
- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.
- Placement of tree stands or blinds on public property does not give a person ownership of that area. First come – first serve is common courtesy that should be used when more than one person wants to hunt the same area (or waterhole).

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. You may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation. Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a

Where, When and How Can You Hunt?

privilege, not a right. Your actions may be the determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Trapping

Trapping on private land is legal in Arizona, with seasons generally running from November through February. All traps must be

inspected daily. It is illegal to disturb traps or trapped animals without permission of the trap owner. If you must disturb a trap, for example to release your own dog, leave the trap where you found it. See Trapping Commission Orders on page 72 and A.R.S. 17-301D.

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within ten days.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big game habitat is found on Forest Service lands, the Department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands

administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a vehicle, both of which are illegal. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301.B on page 96.

It is illegal to use an aircraft to pursue, shoot, hunt or otherwise take wildlife. See R12-4-319 on page 111.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 20-24 and 31-72). Seasons for all wildlife are closed unless specifically opened by Commission Order.

Special restrictions apply on state wildlife areas (see R12-4-802, pages 112), as well as at certain times on parks, refuges and similar areas (see Hunting on Public Lands in the Index, page 115).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 90) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, page 108. Other time requirements apply for migratory birds (see Migratory Bird Regulations).

Operation Game Thief: Wildlife's Answer to Dialing 911

1 (800) 352-0700

Poachers are a serious threat to Arizona's wildlife. They contribute nothing, yet every animal they take deprives hunters and non-hunters alike of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$1,000

may be offered upon arrest in certain cases. Poachers are a "Mutiny on your Bounty" so please help us put them out of business.

Unit Watch Program

The Unit Watch Program began in 1987, and is similar to Neighborhood Block Watch Programs that are found in many communities. Unit Watches use the cooperative assistance

of hunters, anglers and associated organizations, to increase our effectiveness by using peer pressure and oversight to reduce wildlife violations, and bring about regulation outreach.

If you are interested in sponsoring or participating at an upcoming Unit Watch Program, contact the Operation Game Thief Program Manager at (602) 789-3205 for further information.

NEW

License Revocations and Civil Assessments

The Arizona Game and Fish Commission has the authority to revoke an individual's privilege to take wildlife. It also can bring a civil action against the individual to reimburse the State for the value of any unlawfully taken wildlife. For repeat offenders, the Commission may revoke a person's license to take wildlife for the rest of his or her life. Civil values vary depending on the species of wildlife taken and the size. The current civil assessment for trophy class wildlife starts at \$8,000.

In fiscal year 2005-06, the Commission heard 63 license revocation cases and handed out 236.5 years of revocation and \$57,407.97 in civil assessments.

The majority of these cases were initiated by concerned sportsmen, such as you, making a call on the Operation Game Thief hotline. You can and do make a difference! If you witness a violation the following information will assist us during our investigation.

What is the violation?

Where did it occur? Be as specific as possible. It is necessary that our officers return to the site.

When did it occur?

Specific violator/vehicle information. What did the individual look like and what were they wearing? What make, model, and color vehicle were they driving? Record the license plate if possible and, if they left, the direction of travel.

Your name and telephone number. Although this is optional, the number of cases that are actually prosecuted from anonymous tips is very low. This is simply because most people do not know the type of information needed to successfully charge and prosecute a violation. Our officers want to talk with you and will guarantee that no one knows your name. We also want to give you a reward for the information you provided. Each year we pay out thousands of dollars in reward payments to concerned sportsmen.

Poachers are Thieves, Help Stop Poaching

– Minimum Rewards –

\$350 Elk, bighorn sheep, eagles, buffalo, endangered species

\$250 Deer, antelope, bear, lion, turkey, javelina

Up to \$150 Beaver, geese, raptors, ducks, small game, nongame birds, fish

A maximum of \$1,000 can be paid for information about major violations, repeat offenders and commercial poachers. You need not appear in court or give out your name. Upon the arrest of a violator, a reward may be paid to you in such a manner that you will remain anonymous.

– Other Rewards Of \$50 – \$1,000 –

In addition, several sportsmen's groups provide reward monies which allow payment ranging from \$50 to \$1,000 in cases where under state law Operation Game Thief is not able to pay. Nevertheless, the rewards are for cases where the tip was provided originally through Operation Game Thief. Decisions on these are made in consultation with the boards of these organizations:

Arizona Antelope Foundation, Arizona Bowhunters Association, Arizona Elk Society, Tucson Rod and Gun Club, Arizona Desert Bighorn Sheep Society, Arizona Bowhunters and Field Archers Association, Arizona Muzzleloading Association, Central Arizona Bow-hunters, Western Bowhunters Association, Sportsman's Voice, Phoenix Varmint Callers, Arizona Trapper's Association, North American Bear Society, Sportsman's Gun Club, Tucson Chapter of Safari Club International, Phoenix Chapter of Safari Club International, Arizona Chapter of the National Wild Turkey Federation, and the Arizona Deer Association.

The Arizona Houndsmen have offered a special \$5,000 reward. Please see page 90.

Off-Highway Vehicles

The use of off-highway vehicles (OHVs) specifically all-terrain vehicles (ATVs), by hunters is growing. The Arizona Game and Fish Department's Off-Highway Vehicle Program promotes responsible use of off-highway vehicles.

Tips for OHV users:

- Stay on existing roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.
- It is your responsibility to know applicable OHV laws.
- OHV drivers should always wear a helmet.

Firearms safety:

- When carrying a rifle or shotgun on an ATV, it should be unloaded and firmly attached to the vehicle.
- It is unsafe to carry a rifle or shotgun mounted on the handlebars.
- A rifle mounted on handlebars might be longer than the width of an ATV and stick out over the sides. This increases the chance of having the rifle hit something such as a tree, causing the driver to lose control.

OHV rules and laws:

- No one may use a motor vehicle to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit, A.R.S. 17-301B).
- An off-highway vehicle may only be used as a means of travel and NOT as a hunting aid.
- Cross-country travel is not allowed in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.)
- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone numbers to federal and state land management agencies are on pages 82-85.
- Call Operation Game Thief at 1-800-352-0700 to report anyone hunting from an ATV.

Clinics, Raffles and Partnerships

Arizona Antelope Foundation Clinic

The Arizona Antelope Foundation will hold its annual antelope hunter's clinic from 6:30 to 9:30 p.m. June 19, 2007 at Sportsman's Warehouse, 19205 N. 27th Ave., Phoenix. The clinic is held to assist pronghorn hunters on their upcoming hunts. Hunting techniques, field judging, animal care, and unit specific information is emphasized. The Arizona Game and Fish Department will have personnel available to answer questions and strongly encourages antelope hunters to attend the clinic. For more information, contact the Foundation at (623) 936-3533 or visit www.azantelope.org.

Jaguars: Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling (602) 789-3573.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a \$5,000 reward to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

Contact the Department About Damaged Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the Department, however just as many are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest Department office or the Development Branch at (602) 789-3485 at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

Thank you in advance for your support of Arizona's wildlife.

Common Violations While Hunting Big Game, Small Game And Migratory Birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 1 (800) 352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Take Wildlife Without A License

(A.R.S. 17-331) Page 97

In order to take any wildlife in Arizona, you must have a current year's hunting license in your possession. You should check your license every time that you go hunting, fishing or collecting.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 17) Page 96

Any wildlife that is unlawfully taken, may not

be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 15 and 16) Page 96

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Improper Tagging of Big Game

(R12-4-302) Page 108

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 98

Only persons who have been a bona fide resident (pages 9 and 96) of Arizona for a minimum of six months, or members of the Armed Forces stationed in Arizona for a minimum of 30 days, may obtain resident licenses and permits. Factors that may establish residency would include most, if not all of the following: a resident is considered to be someone who primarily or permanently resides in Arizona, possesses an Arizona drivers license and registers their vehicles in Arizona, maintains a home in Arizona, votes in Arizona and pays Arizona resident income taxes. A person cannot be considered a resident of two states at the same time.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11 and 17-301 A) Page 96

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by Commission Order. Pay particular attention to 1/2 day dove seasons and review the Commission orders related to the species you are pursuing before leaving home. Use of spotlights to locate game is illegal if you have any weapons in your vehicle. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing. Examples are leaving all ammunition, arrows

License Revocation

(A.R.S. 17-340) Page 98

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking, selling, bartering or possession of wildlife
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock or crops while hunting or fishing
- acts of vandalism or littering while hunting or fishing
- knowingly allowing another person to use your big game tag
- unlawful entry on to closed area for purposes of taking wildlife
- unlawful posting of state or federal lands
- license fraud
- unlawful use of aircraft to take wildlife

Additional convictions may result in license privileges being revoked for longer periods up to permanently.

Civil Liability

(A.R.S. 17-314) Page 97

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums (updated annually factoring in the current Consumer Price Index):

For each turkey or javelina.....	\$500.00
For each bear, mountain lion, antelope or deer, other than trophy	\$1,500.00
For each elk or eagle, other than trophy or endangered species	\$2,500.00
For each predatory, fur-bearing or nongame animal	\$250.00
For each small game or aquatic wildlife animal	\$50.00
For each trophy or endangered species animal	\$8,000.00

Common Violations While Hunting Big Game, Small Game And Migratory Birds

and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 96 and 111

No person may take wildlife from a motor vehicle (including watercraft and aircraft), except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Take Wildlife With Prohibited Device or By An Unlawful Method

(A.R.S. 17-301.A; 17-309.A 6,10,19, and 21) Page 96

(R-12-4-303) Page 108, and (R-12-4-304) Page 108

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take wildlife with a centerfire rifle with a magazine that holds more than 5 rounds. It is unlawful to take migratory game birds with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 96

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 96

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

Shoot Across Road

(A.R.S. 17-301 B) Page 96

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

- K. All members of a group shall apply for the same hunt numbers and in the same order of preference. The Department shall not issue a hunt permit-tag to any group member unless sufficient hunt permit-tags are available for all group members.
- L. An applicant shall submit only one valid application per genus of wildlife for any calendar year, except:
1. If the bag limit is one per calendar year, an unsuccessful applicant may re-apply for remaining hunt permit-tags in unfilled hunt areas, as specified in the hunt permit-tag application schedule published annually by the Department.
 2. For genera that have multiple draws within a single calendar year, an individual who successfully draws a hunt permit-tag during an earlier season may apply for a later season for the same genus if the individual has not taken the bag limit for that genus during a preceding hunt in the same calendar year.
 3. If the bag limit is more than one per calendar year, an individual may apply as specified in the hunt permit-tag application schedule published annually by the Department for remaining hunt permit-tags in unfilled hunt areas.
- M. An individual shall not apply for a hunt permit-tag for Rocky Mountain bighorn sheep or desert bighorn sheep if that individual has met the lifetime bag limit for that sub-species. An individual shall not apply for a hunt permit-tag for buffalo if the individual has met the lifetime bag limit for that species.
- N. To participate in the bonus point system, an applicant shall comply with R12-4-107.
- O. The Department shall reject as invalid a Hunt Permit-Tag Application Form not prepared or submitted in accordance with this Section or not prepared in a legible manner. If the Department rejects an application from any member of a group, the Department shall reject all applications from the group.
- P. Any hunt permit-tag issued for an application that is subsequently found not to be in accordance with this Section is invalid.
- Q. The Department or its authorized agent shall mail hunt permit-tags to successful applicants. The Department shall return application overpayments to the applicant designated "A" on the Hunt Permit-tag Application Form. Permit application fees shall not be refunded. License fees submitted with a valid application for a bonus point shall not be refunded.
- R. If the Director determines that Department error caused

an individual to submit an invalid application for a hunt permit-tag, prevented an individual from lawfully submitting an application, caused the rejection of an application for a hunt permit-tag, or caused the denial of a hunt permit-tag, the Director may authorize an additional hunt permit-tag if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted and the application for the hunt permit-tag would have otherwise been successful based on its random number. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. If the Director determines that Department error caused the failure to apply an applicant's bonus points to an application, the Director may authorize an additional hunt permit-tag to correct the error, if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. An individual who is denied a hunt permit-tag or a bonus point under this procedure may appeal to the Commission as provided under A.R.S. Title 41, Chapter 6, Article 10.

R12-4-107

Bonus Point System

- A. For the purpose of this Section, the following definitions apply:
1. "Bonus point hunt number" means the hunt number assigned by the Commission in a Commission Order for use by an applicant applying only for a bonus point for a genus identified in this Section; and
 2. "Loyalty bonus point" means a bonus point awarded to an individual who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.
- B. The bonus point system grants an individual one entry in each drawing for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that individual has accumulated under this Section. Each bonus point entry is in addition to the entry normally granted by R12-4-104. When processing "group" applications, as defined in R12-4-104, the Department shall use the average number of bonus points accumulated by the individuals in the group, rounded to the nearest whole number. If the average is equal to or greater than .5, the total will be rounded to the next higher number.
- C. The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application Form if all of the following apply:
1. The application is unsuccessful in the drawing or the application is for a bonus point only;
 2. The application is not for a hunt permit-tag left over after the drawing and available on a first-come, first-served basis as prescribed in R12-4-114; and
 3. The applicant, before the drawing, purchases a hunting license valid for the year in which the hunt takes place. The applicant shall either provide the hunting license number on the application, or submit an application and fees for the license with the Hunt Permit-tag Application Form.
- D. An applicant who purchases a bonus point only shall:
1. Submit a valid Hunt Permit-tag Application Form, as prescribed in R12-4-104, with the Commission-assigned bonus point hunt number for the particular genus as the first choice hunt number on the application. Placing the bonus point only hunt number as a choice other than the first choice or including any other hunt number on the application will result in rejection of the application;
 2. Include with the application, payment for the hunt permit-tag application fee and a fee for a hunting license if the applicant does not already possess a

license valid for the year for which the draw is conducted (If an applicant who purchases a bonus point has not already purchased a license for the year for which the applicant is applying, the applicant shall also submit all applicable information designated under R12-4-104(E)(4). If an applicant who purchases a bonus point has already purchased a license for the year for which the applicant is applying, the applicant shall also submit the number of the applicant's license); and

3. Submit only one Hunt Permit-tag Application Form for the same genus for each season that bonus points are issued for that genus.
- E. With the exception of the hunter education bonus point, each bonus point accumulated is valid only for the genus designated on the Hunt Permit-tag Application Form.
- F. Except for a permanent bonus point awarded for hunter education or loyalty bonus points that are accrued and forfeited as prescribed in subsection (K), all of an individual's accumulated bonus points for a genus are forfeited if:
1. The individual is issued a hunt permit-tag for that genus in a computer drawing; or
 2. The individual fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
- G. An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come, first-served hunt permit-tag remaining after the computer drawing does not gain a bonus point.
- H. The Department shall award one permanent bonus point for each genus upon an individual's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.
1. The Department shall credit an individual who graduated after January 1, 1980, but before January 1, 1991, or an individual certified by the Department as an active hunter education instructor after January 1, 1980, with one permanent bonus point for each genus if the individual provides the following information on a form available from the Department: Department identification number; name; address; residency status, and length of Arizona residency, if applicable; date of birth; sex; weight; height; color of hair and eyes; and, for an individual other than an instructor, the month and year of graduation from the Department's Arizona Hunter Education Course.
 2. An instructor or an individual who has graduated from the Department's Arizona Hunter Education Course shall submit the required form 30 days before a drawing's application deadline, as specified in the hunt permit-tag application schedule, in order for the bonus point to be counted by the Department in that drawing.
- I. The Department shall make an applicant's total number of accumulated bonus points available on the Department's application web site or IVR telephone system. If the applicant disagrees with the total, the applicant may request from the Department proof of compliance with this Section to prove Department error. In the event of an error, the Department shall correct the applicant's record.
- J. The Department shall credit bonus points under an applicant's Department identification number for the genus on the application. The Department shall not transfer bonus points between individuals or genera.
- K. The following provisions apply to the loyalty bonus point program:
1. The Department shall award a loyalty bonus point if an applicant submits a valid application at least once a year for a hunt permit-tag or a bonus point for a specific genus consecutively for a five-year period.
 2. An applicant retains a loyalty bonus point once accrued as long as the applicant submits a valid

Arizona Game and Fish Commission Rules About Hunting

application annually for a hunt permit-tag or a bonus point for the genus for which the loyalty bonus point was accrued.

3. If an applicant who has accrued a loyalty bonus point fails to apply in any calendar year for a hunt permit-tag for the genus for which the loyalty bonus point was accrued, the applicant's loyalty bonus point for that genus is forfeited.
 4. For the purposes of the loyalty bonus point program, year one of the calculation of consecutive application years is 2001, and the Department shall award a loyalty bonus point to an applicant who qualifies for the loyalty bonus point on or after the effective date of this Section.
 5. A loyalty bonus point is accrued in addition to all other bonus points.
- L. The Department shall reinstate any bonus points forfeited for a successful hunt permit-tag application for military personnel, military reserve personnel, national guard personnel, or public agency employees who are unable to use the hunt permit-tag due to mobilization, activation, or required duty in response to a declared national or state emergency, or required duty in response to an action by the President, Congress, or a governor of the United States or its territories. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection. To request that forfeited bonus points be reinstated under these circumstances, an applicant shall submit all of the following to the Arizona Game and Fish Department, Draw Section, 2221 W. Greenway Rd., Phoenix, AZ 85023:
1. A letter from the applicant requesting reinstatement of bonus points;
 2. The hunt number for which the hunt permit-tag is valid;
 3. Evidence of mobilization or duty status, such as a letter from the public agency or official orders;
 4. An official declaration of a state of emergency from the public agency or authority making the declaration of emergency, if applicable; and
 5. The valid, unused hunt permit-tag, which must be received before the beginning date of the hunt for which the hunt permit-tag is valid, or evidence of mobilization or activation that precluded the applicant from submitting the tag before the beginning date of the hunt.

Posting and Access to State Land

A. For the purpose of this Section:

1. "Corrals," "feed lots," or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing, including feeding, roundup, branding, doctoring, and other related purposes.
2. "Existing road" means any maintained or unmaintained road, way, highway, trail or path that has been used for motorized vehicular travel and clearly shows or has a history of established vehicle use.
3. "State lands" means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.

- B. In addition to those prohibitions against posting in A.R.S. § 17-304, an individual shall not lock a gate, construct a fence, place an obstacle or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife. An individual in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that blocks access to state land.
- C. The provisions of this Section do not allow any individual to trespass upon private land to gain access to state land.
- D. An individual may post state lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes as closed to hunting, fishing, or trapping without further action by the Commission.
- E. An individual may post state lands other than those referred to in subsection (D) as closed to hunting, fishing, or trapping only if the individual has obtained a permit

from the Commission, and the Commission determines that the closing is necessary:

1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
 2. To prevent unreasonable destruction of plant life or habitat; or
 3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- F. - J. The Commission may grant permission to lock or obliterate a gate or close a road or trail that provides legally available access to state lands for licensed hunters and fishermen if access to such lands is provided by a reasonable alternate route. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days. Applications for permits for more than 30 days shall be submitted to the Commission for approval. - A. The Director may authorize Department employees to condemn the carcass of a lawfully taken and lawfully possessed diseased, injured, or chemically immobilized wildlife taken under any permit tag that is, in the opinion of the employee, unfit for human consumption, if the individual who took the wildlife requests it and this condition was not created by the actions of the individual who took the wildlife. A Department employee may condemn wildlife that is chemically immobilized if the wildlife was taken during the established withdrawal period of that immobilizing drug.
- B. The individual who took the wildlife shall surrender the entire condemned wildlife carcass and any parts thereof to the Department employee.
- C. After condemnation and surrender of the wildlife, the Department employee shall provide written authorization to the individual who took the wildlife to purchase and use a duplicate tag. The license holder may purchase the tag from any dealer where the tag is available. The license dealer shall forward the written authorization to the Department with the report of the tag sale.

R12-4-114

Issuance of Nonpermit-tags and Hunt Permit-tags

- A. In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371, and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.
- B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
 2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt permit-tag is required to take the species in that hunt area.
1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
 2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:
 - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number for antelope, bear, deer, elk, javelina, and turkey to issue to individuals and groups that have bonus points. The Department shall reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to individuals and groups that have bonus points.
 - b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices.

The Department shall issue the reserved hunt permit-tags by random selection:

- i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
- c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.
- d. If the bag limit established by Commission Order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually.
- D. The Department shall not make available more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any draw to nonresidents. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number to nonresidents.
- E. The Department shall not make available more than 10%, rounded down, of the total hunt permit-tags in any hunt number to nonresidents for antelope, antlered deer, bull elk, javelina, or turkey. If a hunt number for antelope, antlered deer, bull elk, javelina or turkey has ten hunt permit-tags or fewer, no more than one hunt permit-tag will be made available to a nonresident, except that if a hunt number has only one hunt permit-tag, that tag shall only be available to a resident.
- F. Any cap established under this Section applies only to hunt permit-tags issued by random drawing under subsections (C)(2)(b) and (c).

- F. To participate in a supplemental hunt, an individual shall obtain a restricted non-permit tag as prescribed by this Section. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued.
- G. If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.

- J. When issuing restricted nonpermit-tags to the hunter pool, the Department or its authorized agent shall randomly select applicants from the hunter pool. The Department or its authorized agent shall attempt to contact each randomly-selected applicant by telephone at least three times during a 24-hour period. If an applicant cannot be contacted or cannot participate in the supplemental hunt, the Department or its authorized agent shall return the application to the hunter pool and draw another application.
