INTRODUCTION

Arizona Revised Statute § 41-2405 (A) 12 requires the Arizona Criminal Justice Commission to submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives an annual report on law enforcement activities funded by the DRUG AND GANG ENFORCEMENT ACCOUNT (ACCOUNT) or the CRIMINAL JUSTICE ENHANCEMENT FUND (CJEF) as it relates to illicit drugs and drug related gang activity. This annual report requirement was established in 1990.

The DRUG AND GANG ENFORCEMENT ACCOUNT established in 1987 by Arizona Revised Statute § 41-2402, is used to enhance efforts to deter, investigate, prosecute, adjudicate, and punish drug offenders. Funds in the DRUG AND GANG ENFORCEMENT ACCOUNT are from the following sources:

- (1) Federal monies made available to states by grants under the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program;
- (2) Mandatory fines collected for felony drug offense convictions as authorized by A.R.S. 13 Chapter 34;
- (3) Appropriations to the ACCOUNT by the Legislature; and
- (4) Local cash match funds furnished by grantees.

In 1987, the Arizona Criminal Justice Commission developed and implemented a statewide enhanced drug enforcement strategy, as required to qualify for federal formula grant assistance monies for drug control. The strategy was designed to be compatible with the statutory requirements that created the DRUG AND GANG ENFORCEMENT ACCOUNT. The strategy is the framework within which the Arizona Criminal Justice Commission allots and distributes all monies in the ACCOUNT. Each year the strategy is reviewed, refined, updated, and published by the Arizona Criminal Justice Commission. A formal application system and an extensive open meeting process is utilized by the Arizona Criminal Justice Commission for awarding grant funds from the ACCOUNT. In 2000, the strategy was submitted for a 3 year period, but will continue to be reviewed and updated annually.

The CRIMINAL JUSTICE ENHANCEMENT FUND is established by Arizona Revised Statute § 41-2401. This statute details which entities shall receive monies from the CJEF by percentage amounts and the purposes for utilization of the monies.

Introduction

This report provides summary information on projects receiving funds from the DRUG AND GANG ENFORCEMENT ACCOUNT and on projects funded by the CRIMINAL JUSTICE ENHANCEMENT FUND during FY 2000 (July 1, 1999 to June 30, 2000), related to drug activity or drug related street gang activity. Many other very valuable and productive drug and gang enforcement, and prevention activities are conducted throughout the State funded entirely by state, local and county authorities, without enhancement monies, and are therefore not included in this report.

DRUG AND GANG ENFORCEMENT ACCOUNT

In FY 2000 (July 1, 2000 to June 30, 2001), the Arizona Criminal Justice Commission authorized a total of \$13,854,715 in award funds from the DRUG AND GANG ENFORCEMENT ACCOUNT to 72 projects in the State. The DRUG AND GANG ENFORCEMENT ACCOUNT includes \$2,319,151 of local cash match funds deposited by grant recipients.

<u>SOURCE OF MONIES</u>	<u>2000</u>
Federal Formula Grant Funds	\$6,957,451
Drug Fines	\$4,578,113
State Appropriated Funds	\$0
Local Match Funds	\$2,319,151

The Commission authorizes ACCOUNT funding to projects in the State in six program areas in accordance with the statewide enhanced drug enforcement strategy and the ACCOUNT guidelines. The six areas are: drug apprehension and prosecution, criminal history records improvement, drug offender adjudication, drug offender detention, drug analysis (forensic services) and drug abuse education/prevention.

In FY 2000, 16 drug apprehension projects consisting of 16 multi-jurisdictional, multi-agency drug task forces, established in all 15 counties in the State of Arizona, received support funding from the ACCOUNT. There were 15 drug prosecution projects in the State receiving support funding from the ACCOUNT. Included in these 15 projects were full time dedicated drug prosecutors in 13 of the 15 counties in Arizona.

During FY 2000, 10 criminal history records improvement projects received ACCOUNT funds.

Drug offender detention projects in 2 counties received ACCOUNT funds. Drug testing funds were provided to the Department of Corrections. Drug abuse education projects received support funding from the ACCOUNT in 1 location. Enhanced drug forensic analysis projects including the Department of Public Safety, the Phoenix Police Department, and the Tucson Police Department received ACCOUNT funds. One program grant from the ACCOUNT was authorized to the Administrative Office of the Courts which passed the ACCOUNT funds through to 24 court related enhancement projects in all 15 counties in Arizona.

Drug and Gang Enforcement Account

In FY 2000, direct personnel costs made up 87% of the authorized expenditures from the ACCOUNT. The other costs associated with the projects such as equipment, operations, space, etc. were supplied by the State, county, and local authorities participating in the projects. The ACCOUNT expenditures provided salaries, overtime, and employee related expenses for 286 criminal justice professionals in the State of Arizona.

In FY 2000, apprehension project activities resulted in the arrest of 3,714 drug offense violators, a 10.93% increase over FY 1999 (3,348); the removal of 135,046 pounds of marijuana a slight (1.75%) increase over FY 1999 (132,721); 1,803.49 pounds of cocaine; and 183.47 pounds of methamphetamine/amphetamine, an 11.90% increase over FY 1999 (163.96). Drug traffickers' non-drug assets with a gross estimated value of \$12,148,671 were seized in this 12 month period.

Statistical results have been compiled from the 15 drug prosecution projects funded by the ACCOUNT for FY 2000. These results show a continued aggressive drug prosecution effort in the State. During this period, 11,597 drug violators were convicted in the State; 62.78% of these were felony convictions. Prison sentences were received by 1,289 of these convicted drug violators; 2,681 received jail sentences; and 4,125 were placed on probation.

The criminal justice records improvement projects receiving support funds from the ACCOUNT have enabled State, county and local law enforcement agencies to improve criminal justice records automation systems by the acquisition of hardware, software, and consultant expertise.

Expenditures from the ACCOUNT were begun in March, 1988. A sustained continuous program has been maintained since that time. In the 147 month period from April 1, 1988 through June 30, 2000, \$48,712,257 was expended by apprehension projects; \$45,245,125 for prosecution projects; \$25,757,072 for adjudication projects; \$12,848,446 for drug abuse education, drug forensic analysis, and drug offender detention projects; and \$5,169,866 for criminal history records improvement projects which had its first expenditure in FY 1995.

The statewide enhanced drug enforcement program has been highly productive. During the 147 month period, apprehension projects' activities resulted in the arrest of 38,555 drug offense violators. Program activities were responsible for the removal of over 55,988 pounds of cocaine, over 1,538,395 pounds of marijuana, 132 pounds of heroin, and over 2,243 pounds of amphetamine/methamphetamine. Drug traffickers' non-drug assets with a gross estimated value of \$127,260,911 were seized during this 147 month period.

The actual results achieved in the 147 months of the enhanced drug enforcement program show that for every \$1,263 expended by the apprehension projects one (1) drug violator arrest was made, drug traffickers were deprived of the profit from the drugs seized and also deprived of an estimated value of \$3,301 in non-drug assets seized.

NOTICE

Actual forfeiture of seized trafficker assets is a legal process and the gross estimated value of such seizures is very seldom received by law enforcement and prosecuting agencies. After forfeiture is achieved, lien holders (financial institutions and other legitimate claimants) are paid from the actual forfeiture proceeds. Storage, property maintenance and management costs, and processing and disposition fees are also paid from forfeiture proceeds. The gross estimated value of seizures is used only as an indicator of the negative impact seizures have on drug traffickers' resources.

The statewide distribution of DRUG AND GANG ENFORCEMENT ACCOUNT funds for FY 2000 for each project is presented by geographical area and program on the following pages.

The Apache County Cooperative Enforcement Narcotics Team is a small, formally organized multi-jurisdictional, multi-agency narcotics task force operating under a board of directors. It consists of local officers working closely with a full time drug case prosecutor to identify, arrest and prosecute drug traffickers, and seize drugs and forfeitable assets.

The primary objective of the task force is to provide a coordinated drug, gang and violent crime investigation and prosecution effort in Apache County to reduce drug abuse and drug trafficking.

ACCENT is administered by the Apache County Sheriff's Office. Participants include the St. Johns Police Department; Springerville Police Department; Eagar Police Department; Arizona Department of Public Safety; Navajo Nation Police Department; Apache County Attorney's Office; and the County Sheriff's Office.

This multi-agency task force has made 1,560 drug arrests since its inception in April 1988. The 73% in use/possession arrests continues to reflect the task force's firm user accountability approach to deterring drug abuse in Apache County. The task force has seized 77.70 pounds of cocaine; 3,963 pounds of marijuana; 6,841 cannabis plants under cultivation; 51.66 pounds of methamphetamine; and 27,324 dosage units of other dangerous drugs. The task force has seized drug law violators' assets with an estimated value of \$2,719,447. This enforcement program provides limited coverage for an area suspected of having high levels of transportation of illicit drugs enroute from the U.S. - Mexico border, through Southern Arizona and New Mexico, and on to other states.

Cochise County Border Alliance Group (BAG)

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$199,807
Includes Local Cash Matching Funds of:	\$45,220

The Border Alliance Group (BAG) is a drug enforcement task force, involving Federal, State, and local agencies, formally organized to identify, arrest and prosecute drug traffickers. The Task Force is organized to seize drugs and cash assets, and pursue investigative leads to upper level trafficking organizations operating in the federally designated Southwest Border High Intensity Drug Trafficking Area that includes all of Cochise County.

The primary objective of the task force is to effectively dismantle narcotics smuggling and street gang networks in Cochise County through aggressive enforcement and prosecution; investigative training; centralized intelligence analysis; and asset seizure and forfeiture.

BAG is administered by the Cochise County Sheriff's Office. Participants include the Arizona Department of Public Safety; Benson Police Department; Bisbee Police Department; Tombstone Marshal; Willcox Police Department; Douglas Police Department; Cochise County Attorney's Office; and the County Sheriff's Office.

This task force, operating along the 83 miles of remote, sparsely populated United States border with the Republic of Mexico, has continued its high levels of productivity in drug seizures, including over 11,273 pounds of cocaine; 273,579 pounds of marijuana; 4,685 cannabis plants under cultivation; over 171 ounces of methamphetamine; and moderate amounts of other dangerous drugs. Since its inception in 1988, the task force has also seized drug law violators' assets valued at an estimated \$13,186,863 and made 1,984 arrests; 75% were for sales/trafficking offenses. This level of task force activity continues to support the value derived from inter-agency cooperation in the anti-drug campaign, with substantial impact on reducing the availability of illicit drugs.

The primary goals are to arrest and prosecute individuals transporting illegal drugs through commercial transportation; to seize illegal drugs being transported; and to seize cash and other financial assets related to illicit drug trafficking.

The Commercial Narcotics Interdiction Program is administered by the Phoenix Police Department. Participants include the United States Drug Enforcement Administration; Maricopa County Attorney's Office; Arizona National Guard; and the Phoenix Police Department.

This strategically located unit has continued to maintain high levels of productivity. Maricopa County Multi-Agency Drug Enforcement Detention Strategy

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds: \$327,299

The Program is administered by the Maricopa County Sheriff's Office. The activity enhances the Maricopa County jail system by providing 9 full time detention officers that allow the detention system to respond to increases in drug violator arrests and average daily drug violator inmate population demands. This increase resulted from enhanced, county wide drug enforcement activities in Maricopa County, one of the six counties that make up Arizona's portion of the federally designated Southwest Border High Intensity Drug Trafficking Area.

The primary objectives are to provide capability to respond to increased need for detention services generated by the multi-jurisdictional drug enforcement strategy in Maricopa County; assure adequate supervision and control of inmates, detention officer training, and required support staff.

This program provides vital detention services in the Maricopa County jail, which in October 1998 had an average daily inmate population of 6,907, with a total of 121,272 processed each year. The ultimate benefit from this enhanced funding is that it allows the Maricopa County Jail to keep one additional housing facility open that would otherwise not be possible. The number of prisoners in the jail on drug or drug related charges makes up a substantial portion of the total inmate population. Grant funds maintain the number of detention officers at a level that facilitates supervision and control of drug offenders.

Arizona Supreme Court Anti-Drug Adjudication

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds: \$2,640,653

This project is administered by the Administrative Office of the Courts. The anti-drug abuse adjudication program provides the court system with grant funds to enhance agencies throughout the State, including the Superior Courts in 9 of Arizona's 15 counties, the Adult Probation offices in Apache, Cochise, Greenlee, La Paz, Maricopa, Mohave, Pima, Pinal, Santa Cruz, Yavapai and Public Defender Offices in Gila, Graham, Maricopa and Yavapai counties. The Administrative Office of the Courts also administers a felony drug testing program with the grant funds.

The primary objectives of this activity are to meet the current demands placed upon the court system and the offices of public defenders by the enhanced enforcement and prosecution efforts funded by the ACCOUNT.

This activity provides enhanced adjudication services for Arizona's criminal justice system. The Administrative Office of the Courts (AOC) maintains administrative authority over the 24 court-related activities receiving drug grants to accommodate increased caseloads resulting from the enhanced drug enforcement effort in Arizona. Each project has proved to be meritorious and responsible in the administration of funds received. The projects deliver a wide range of services to expedite the judicial process. These services could not have been provided without impacting on other court services were it not for the grant funding assistance. These projects are a vital element in Arizona's anti-drug, gang and violent crime effort.

Apache County Sheriff's Office

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$126,038
Includes Local Cash Matching Funds:	\$31,510

This project is administered by the Apache County Sheriff's Office. This project used funding to provide new radio consoles that are a necessary and integral part of the Computerized Records Management System.

This goal of the new radio system is to provide a one-touch data entry function, which will minimize hands on time, allowing for quick input and loop into the Records Management System.

The Apache County Sheriff's Office spent all of it's grant award on the purchase of new radio console systems. The new system is compatible with the recently implemented case management system. The installation of the new console system brings the Apache County Sheriff's Office into full automation.

Arizona Department of Corrections

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$49,280
Includes Local Cash Matching Funds:	\$12,320

This project is administered by the Arizona Department of Corrections. This project used the funding to purchase Arizona Automated Fingerprint Information System (AZAFIS) Mug Shot Interface subsystems to be placed in four prison complexes. This will ensure all conviction records for incarcerated offenders and other convicted felons being returned to prison are supported by digitized image and fingerprint data.

The goal of this project is to allow all the Arizona Department of Corrections institutions to interface with AZAFIS, the Motor Vehicle Division, and the County Sheriff's Offices allowing all photos of offenders to be fingerprint based identified. This will allow quicker identification of certain high-risk offenders during routine traffic stops as well as result in potential match with latent fingerprints found at old crime scenes where the suspect was previously unknown.

The Arizona Department of Corrections purchased two Automated Image Scanner Interface (AISI) machines, installation, eight 56K lines, and supplies. The AISI machines will record digitized inmate fingerprints and photo records.

Cochise County Attorney's Office

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$100,000
Includes Local Cash Matching Funds:	\$25,000

This project is administered by the Cochise County Attorney's Office. Funding was utilized to bring the County Attorney's Office Information System in compliance with the Y2K requirements.

The goals of this project are to facilitate the decision-making process for the County Attorney's Office to become compliant for the year 2000, provide the County Attorney and other criminal justice agencies better statistics and case management information, and to improve the case management system in order to maintain accurate records and greater detail.

The Cochise County Attorney's office spent the grant funds to upgrade their hardware and software, bringing the agency into full Y2K compliance. Among the purchases were 35 Pentium III computers, a new Windows based case management system, upgraded word processing applications, upgraded operating system and the implementation of the in-house e-mail.

Coconino County Sheriff's Office

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$97,800
Includes Local Cash Matching Funds:	\$24,450

This project is administered by the Coconino County Sheriff's Office. The Coconino Sheriff's Office, Coconino County Jail District and Flagstaff Police Department are working in a collaborative effort to jointly purchase a Jail Management, Records Management and Computer Aided Dispatch system to support the collocated facilities. The funds paid for a portion of the hardware necessary to implement the Records Management module of the system for both Criminal History and Arrest Records. The Criminal History records will be the primary focus and will be used as the foundation for sharing information with other agencies.

The objective of this program is the development of a system that will provide complete and accurate records information by total automation of data collection, the ability to share this information between the three collocated agencies as well as input to the county-wide integrated system, and the ability to have information available on a real-time basis.

With the grant funds the Coconino County Sheriff's Office purchased servers, PC's and monitors needed to implement the new Records Management System. The funds were instrumental in the implementation of the county-wide integrated justice system which is expected to be fully operational by 2002.

Coolidge Police Department

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$100,000
Includes Local Cash Matching Funds:	\$25,000

This project is administered by the Coolidge Police Department. The Coolidge Police Department had a 12 year old Records Management system, that had been continually updated. However, the computer equipment and software were not Y2K compliant and failed on January 1, 2000. The system allowed them to retrieve files, but not allow files to be created or updated after that date. They had to revert back to keeping paper files.

The objectives of this project are to share criminal justice information and improve the department's ability to examine criminal history records, access case management, and enhance many other duties, and to report criminal justice records to the Department of Public Safety with more accuracy and in a shorter period of time.

As of press time for this publication the Coolidge Police Department is receiving bids for a new Records Management system. The system is not yet operational.

Florence Police Department

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$5,000
Includes Local Cash Matching Funds:	\$1,250

This project is administered by the Florence Police Department. The funds will allow the Florence Police Department to automate their criminal records system, that currently consists of hard copies of records stored in file cabinets in the dispatch area of the police station.

The objective of the program is to have all prior records entered into the Records Management system, making all records available to authorized agencies.

The grant funds aided the Florence Police Department in the purchase of several items used to assist in the implementation of the Spillman Case Management system. Among the purchases were routers, server, hardware upgrades, patch cards, and other equipment. Additional funds for this system were paid for by the town of Florence with other grant funds received through the Local Law Enforcement Block Grant.

Gila County Sheriff's Office

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$98,575
Includes Local Cash Matching Funds:	\$24,644

This project is administered by the Gila County Sheriff's Office. This agency was provided funds to purchase an integrated records management system, that would replace the outdated 1988 computer system that did not comply with the Y2K requirement.

The goals and objectives upon completion of the automation project are to comply with the statutory/mandated time line for notification of inmate release, sex offender community notification, FBI reporting, and felony arrest to the County Attorney.

The Gila County Sheriff's Office purchased the Spillman Case Management System. This system dramatically improved the existing records management system. Training and education were an integral part of the new system. In addition to the case management system hardware and software were purchased.

Globe Police Department

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$33,776
Includes Local Cash Matching Funds:	\$8,444

This project is administered by the Globe Police Department. These funds will allow the Globe Police Officers to examine criminal history records, share necessary information internally and with the State, and to automatically report arrests and dispositions. With software, the booking section will be compatible with the capture of photos, and the criminal investigation department will be able to track, retrieve, and locate property and evidence in an effective manner.

The objectives of this project are: 1) to share criminal information, 2) to improve the ability to examine criminal history records, 3) to access case management, 4) to forward records to the State repository in a timely manner, 5) to accurately record final dispositions, and 6) maintain all criminal information electronically.

The Globe Police Department purchased and installed computers and software programs to implement a new evidence tracking system. This new automated system alleviates duplicate data entry. Prior to the new system, the same data was entered by both the police officer and the records clerk.

Pima County Attorney's Office

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$98,800
Includes Local Cash Matching Funds:	\$24,700

This project is administered by the Pima County Attorney's Office. The funding for this project will be used to purchase hardware that includes a server and T1 line. This will allow the current system to accept initial defendant/case information electronically from the Pima County Sheriff's Office; transfer and accept information to and from the Superior Court system; expand the system to include more specific case information necessary to submit grant reports to the Criminal Justice Commission.

The server will provide the necessary computing power and storage to enable completion. The T1 line allows the inter-connectivity of the County Attorney's Prosecution System (CAPS II) with other law enforcement agencies systems.

The Pima County Attorney spent the grant funds on an IBM server and hardware. With the new server, the county attorney's office has increased it's ability to track case information and outcome. Information is easily shared with the new system, thus relieving redundant data entry.

Santa Cruz County Attorney's Office

Source and amount of monies received:

FY 00 Drug and Gang Enforcement Account Funds:	\$30,300
Includes Local Cash Matching Funds:	\$7,575

This project is administered by the Santa Cruz County Attorney's Office. This project provided a new case management system that will be compatible with most operating systems, and can easily share data with other agencies.

The goal of the project is to increase the efficiency and effectiveness of the case management system. The system must provide instant statistics as well as graphical displays of data.

The Santa Cruz County Attorney's Office has spent the grant funds on the installation and training of the new case management system. The new program can provide instant statistics and graphical displays. Data from the system can easily be shared via disk or e-mail.
