

## State Route 64 Williams to Grand Canyon to Cameron Highway

**Location:** Flagstaff District; Coconino County  
**Length:** 110 miles  
**Begins:** East of Williams (MP 185.51)  
**Ends:** South of Cameron (MP 295.83)

SR 64 was the first state highway to reach the south rim of the Grand Canyon National Park. Today, the middle section of this highway is the famous Grand Canyon South Rim Drive. The remaining segments of SR 64—Interstate 40 east of Williams to the southern park boundary and US 89 south of Cameron to the eastern park boundary—link the developed world with the wilderness spectacle that is the Grand Canyon.
