NOVEMBER, 1962

My Creed

I do not choose to be a common man. It is my right to be uncommon - if I can. I seek opportunity - not security. I do not wish to be a kept citizen, humbled and dulled by having the state look after me. I want to take the calculated risk; to dream and to build, to fail and to succeed. I refuse to barter incentive for a dole. I prefer the challenges of life to the guaranteed existence; the thrill of fulfillment to the stale calm of utopia. I will not trade freedom for beneficence nor my dignity for a handout. I will never cower before any master nor bend to any threat. It is my heritage to stand erect, proud and unafraid; to think and act for myself, enjoy the benefit of my creations and to face the world boldly and say, this I have done. All this is what it means to be an American.

THE AMERICAN INSTITUTE FOR FOREIGN TRADE

THUNDERBIRD CAMPUS

PHOENIX, ARIZONA

Dedication

Posted in his office for all to see, Dr. Schurz displayed a yellowed clipping he obviously treasured, for he lived by its sentiment.

For just twenty years I had the fortune to work with him in varying relationships: for several times under his direction, again as a colleague of equal rank, and even in a position to help direct his work. Through troubled and sometimes difficult times and even through some relatively peaceful periods, one constant characteristic could always be counted on: his fiercely independent spirit, coupled with loving compassion toward other individuals.

On the cover page, stated by Dean Alfange, is the key, - the creed by which he lived.

The following paragraph is an excerpt from a letter I received from Mrs. Schurz on August 6, 1962:

"After all the long years of marriage - 37 - I knew my husband well, but have received some new insights since his passing. I shall honor him forever, for his superiority, his prodigious erudition, his accomplishments in teaching, writing, and good fellowship with his students, colleagues and friends; the most industrious man I have come across - with a character to match his physical strength. His wit and wisdom had a rare quality and originality so seldom come on. What unforgettable conversations we have had, and always with some spontaneous and delightful remark to vitalize his remarks. He was tender, gentle and kind with all unprotected creatures - people or natural creatures. He spoke his mind - his wonderful mind - on all sorts of unpopular subjects, and earned the suspicions of boobs and slobos who could not understand. He loved beautiful, vital women - fire-cracker Schurz - I called him. He was the archetype gentleman adventurer. He was a good father and husband."

It is to Dr. William Lytle Schurz that the alumni, faculty and staff, of The American Institute for Foreign Trade dedicate the November 1962 issue of the News of Thunderbirds.

Carl A. Schurz
President

On behalf of Mrs. Marie Schurz, and the Institute, we wish to thank the scores of Thunderbirds for their messages of condolence on the death of Dr. Schurz. All such expressions of esteem from Dr. Schurz' graduates and academic colleagues will become a part of a bound volume to be presented to Mrs. Schurz.

IN MEMORIAM

Through ROBERT H. KAHLEY June '47, we learned of the death of his AIFT roommate, DICK VAN ATTA, of Elmira, New York. DICK, a victim of cancer, passed away in October 1961.

PRESIDENT'S REPORT

October 17, 1962

Before this semester began, I sent a letter to all the incoming students covering the faculty changes for the coming semester. I am sure this is of interest to you.

"Dear Student:

Even before you reach the campus, I would like to share with you both the sad and good news about our faculty at The American Institute for Foreign Trade.

The death of our Dean of the Faculty and Director of the Department of Area Studies, Doctor William Lytle Schurz, was a tragic blow. He died on Thursday, July 26, 1962. I have tried in the enclosed 'In Memoriam' to express something of our feelings.

Our faculty will be greatly strengthened by those who will be joining it in September. They are:

Dr. Milton C. Towner, Dean and Professor of Asian Studies, has recently returned from ten years in Indonesia and has an academic background and practical industrial experience that fit him unusually for his new function at the Institute.

TOWNER

His B. A. degree was secured at Coe College, Iowa, and his Masters and Doctors degrees were earned at the State University of Iowa. In addition, he has done a great deal of post-doctoral work in college and university administration. He taught for six years at the University of Missouri, and three years at the University of Chicago. He then transferred his activities to administrative work and was a college dean, assistant to the president, director of admissions, and college president.

He became active in governmental agencies in the office of Scientific Research and Development of the National Defense Research Committee and was successively assigned to Columbia University, the University of California and Johns Hopkins.

He was Director of Training for the Carrier Corporation, then went to Korea as head of the training section of the Economic Cooperation Administration, was appointed Director of the College of Civil Defense Administration, and was called to assist the Indonesian government with a survey of teacher training aids. He established the first technical teacher training institute which became the pilot model for five other similar institutions established while he was still in Java. Dr. Towner later went to South Sumatra and developed a complete program of industrial education for the Standard Vacuum organization.

Mr. William P. Cochran, Jr. has been appointed Associate Professor of Area Studies and International Relations at The American Institute for Foreign Trade. He joins the faculty with a long background of foreign service experience, beginning in 1928 and continuing until 1961. He was graduated in 1924 from the Naval Academy, with distinction. Subsequently, he took graduate work at Temple University, Harvard University and the National War College. He served on the faculty of the Army War College at Carlisle in 1950-52, as faculty adviser, giving occasional lectures, leading seminars, and preparing a course on international relations.

ALUMNI CHAPTER NEWS

His foreign service experience ranged from posts in New Zealand, Mexico, El Salvador, Peru, Nicaragua, Budapest, Brazil, Taiwan, and Sweden, to assignments in the Department of State. Here he served on the Trade Agreements Division and the Negotiating Committee for Czechoslovak Trade agreements; was Assistant Chief and then Chief of the Division of Caribbean and Central American Affairs; on the Board of Examiners for Foreign Service; and with the International Cooperation Administration (ICA, now AID) for the Evaluation Program.

Mr. Edward Gatewood Trueblood joins us as Associate Professor of Latin American Studies and International Relations at The American Institute for Foreign Trade, received his B.A., summa cum laude, at Princeton, and did graduate work at the Ecole des Sciences Politiques in Paris.

TRUEBLOOD

From 1928 on, he devoted thirty years as Foreign Service Officer of the Department of State, entering as Vice Consul and retiring as Class I Officer, Consul General and Counselor of Embassy. He served in posts or missions in Mexico, Costa Rica, Peru, Bolivia, Chile, Argentina, Uruguay, Paraguay in South America, as well as Canada, France, Spain and India. After his retirement he was appointed Resident Representative of the United Nations Technical Assistance Board for Peru, and became Assistant Director of the International Affairs Seminars Program of the American Friends Service Committee in Washington, D.C. In 1960 he served as a senior editor for the Encyclopaedia Britannica, specializing on articles dealing with Latin America and international relations.

The extensive background of academic achievement, the familiarity with the various areas, and the practical industrial experience place the Area Studies Division in a unique position in this field.

Mr. Edwin H. Coleman, Ph. C., University of Cincinnati, 1924, is the newest member of the Department of International Commerce of the faculty of The American Institute for Foreign Trade. He occupies the unusual position of one who has had the opportunity of organizing an international development project of a large corporation 'from scratch' and seeing it grow from a first-year figure of one million dollars to an annual volume of twenty-eight million dollars during his stewardship.

Mr. Coleman joined the Upjohn Company in 1929, and remained with that firm until his retirement in 1960. Starting in the sales division, he was successively supervisor of the Cincinnati, Chicago and New York offices, assistant general sales manager. As executive vice president, and organizer of the international development program, including overseas productions, he was directly responsible for foreign joint ventures, wholly-owned subsidiaries, conventional export business, budgeting, personnel, and all of the other many ramifications of a world-wide organization.

With this experience behind him, Mr. Coleman is sure to add much to the work and standing of the Department, and be a source of great stimulation to the students at AIFT looking forward to foreign assignments.

I have had the opportunity of talking with these new faculty members and know that they are looking forward eagerly to their coming semester's work.

Carl A. Sauer, President"

The LOS ANGELES Thunderbirds, spearheaded by DOUG BUCKMASTER and LEE WESTENDORF, are planning a November 16 get-together at the home of BARBARA WAGNER, 27658 Saddle Road, Larga Vista, Rolling Hills. They have a real treat in store, beginning at 7:30 p.m. If you know of any Thunderbirds in the vicinity who are not on the Los Angeles mailing list, please have them contact DOUG at 1425 East Dorothy Lane in Fullerton, or LEE at Apartment 205, 124 South Santa Anita Avenue in Arcadia.

The successful and impressive reign of TOBY MADISON, as President of the NEW YORK AIFT ALUMNI CHAPTER, has ended. At a recent meeting of the Board of Governors, CARLOS SILVA '60, who has been an active member of the chapter, was elected to succeed TOBY. We congratulate him on his rise to the presidency, and wish him luck. To TOBY - our sincere thanks for a job well done. The NEW YORK group hosted a dinner on November 2nd in honor of President Carl A. Sauer, Mabel Erickson and Leo Hageman, who were in the city for the National Foreign Trade Convention.

This past summer, LEA NORONHA served on the staff of a six-weeks' language institute at St. Teresa's in Winona, Minnesota. The rest of the summer she spent visiting T'birds from coast to coast. We regret that limited space does not permit a full account of the many social functions given in Lea's honor, nor a list of attending Thunderbirds. Lea began her summer on the West Coast, visiting with BEULAH MALLETT '53 in Los Angeles. She spent five days in San Francisco, where she saw AMANDA HUNSAKER '55, and was a dinner guest of AL WOODS and STAN ALLEN '58, and the JOHN KIESERS '60. She attended the World's Fair in Seattle, and was entertained by JACK GAUSS '63 and PAT PARENTE '62. Enroute to Winona, Lea spent a weekend with the OZZIE WAYS '61 in Minneapolis. Following the institute she sojourned to Fort Wayne, Indiana, where she was wined and dined by GEORGE SCHAEFER '59 and his friends. She saw JOHN WEAVER '52 in Cleveland, and visited JOHN's parents in Canton, Ohio. Then on to Washington, D.C., for a "quickie" visit with the DENMAN STANFIELDS '50. Lea arrived in New York in mid-August, and her ten-day stay there was one grand whirl - beginning with the cocktail party hosted by SHIRLEY WOOD '62, which brought forth 20 of Lea's T'bird admirers; then the luncheon promoted by DICK TURNER, former AIFT professor, attended by 25 Thunderbirds, and the cocktail party jointly-hosted by JIM PATTERSON '61 and ORLIN JACOBSON '62, which brought together 21 AIFTers. She was a dinner guest of the ERIK FLAESSES '62, PETER REITZ '62, DAVE DEVORE '61, HARRY TOKHEIM '60, and PETER HAMMER '62, and was a luncheon guest of HILARY WILSON '52. She was also a luncheon guest of Don Bullock, former FNCB recruiter to the campus, and had an opportunity to observe Thunderbird bankers in action. Lea also spent a day with the William Shaterians.

The DICK BARRUTIAS spent several weeks in Quito, Ecuador, where DICK was on the staff of the AIFT-NDEA summer institute. While there, DON CASWELL '57 flew into Quito for a visit with them. In Guayaquil, they saw DAVE HART '57, HARRY WAIT '58, BOB CASTILLO '60 and DAN MORIARTY '61. After MITZIE took off for the States DICK flew to Lima to see the DICK DEAKINS '58, who hosted a party bringing together the Lima contingent of Thunderbirds. He was also a dinner guest of the PAUL WELBORNS '57. On to Rio, where he was joined by DR. "PACO" GAONA, and where he bunked with ART NUNLEY '58. ART hustled up an impromptu get-together in their honor, which was attended by 30 Thunderbirds and their friends. The BOB LAPORTS '58 flew in from Buenos Aires to visit with DICK, and then proceeded to Lima for a visit with the DEAKINS, before returning to the States and a new Chase Manhattan assignment.

AREA STUDIES DEPARTMENT ASKS OVERSEAS HELP

Professor Trueblood, who teaches Latin America Area Studies, would be very much helped if our Library had a representative collection of history texts as taught in secondary schools south of the Rio Grande. The interpretation, to American students, of the basic attitudes of others rests of course on the interpretation of the past under which others have grown up.

This plea, of course, is not limited to Latin America.

How about a history text or two that is being used in secondary schools in your community? Just address them to the Library, AIFT, P. O. Box 191, Phoenix, Arizona, USA, with your card.

QUERY ON ALUMNI POLICY

The reputation of the AIFT Alumni, particularly the overseas contingent, is growing by leaps and bounds as that of a body of superior young people who occupy places in the world today.

This is gratifying, but also is no more than is due you.

This reputation, however, brings with it the opportunity of adding to responsibilities. Quite frequently we are asked if our overseas alumni would be willing to undertake additional work to further other programs, such as the nation's People to People Program, headed by ex-President Eisenhower and President Kennedy. That would involve "making contact with local schools and other organizations that ought to be affiliated with the People to People Program." Another would involve securing U. S.-based consultants' expert help in solving local overseas problems, e.g., those of community development, in which overseas Americans are interested.

We have heretofore not publicized nor even transmitted these inquiries to you as a body, through the Bulletin.

Now we ask for an expression of opinion from you in the field: Do you want us to transmit such appeals in cases where we think them solid and worthy? Or don't you want to be bothered?

There remains the needs of AIFT itself, of course. You alumni have done a splendid job in making possible the creation of a documentary film on the Institute, and we are all grateful. Contributions continue to arrive for a memorial to Dr. Schurz, whose form will necessarily be determined by the resources made available. And there will be other projects, we are sure.

So let us know how you feel about extending your activities locally.

49th NATIONAL FOREIGN TRADE CONVENTION

AIFT was represented by a large delegation at the 49th National Foreign Trade Convention held in New York, October 28, 29 and 30. This organization is probably one of the most important in the entire field of foreign trade, and executives of commercial firms and representatives of the United States government and foreign governments were among the more than 2,000 in attendance. President Sauer, Mrs. Mabel Erickson, former Director of Placement, Mr. Leo C. Hageman, Director of Placement, and Mr. William Shaterian, Assistant to the President, attended the sessions.

THUNDERBIRD CONTINGENT of the Trade Information Staff of the 1962 Chicago International Trade Fair.

President Sauer was the discussion leader at the educational session at which the principal speaker was Dr. Dwayne Orton, Educational Consultant to I.B.M. Mrs. Erickson before returning to Phoenix will be going to Washington where she will discuss AIFT matters with government officials and others. Mr. Hageman plans to remain in New York for three weeks after the convention, visiting various companies active in foreign trade. His object, of course, will be to interest them in AIFT and our graduates as a source of manpower for their international operations. A special meeting of the New York alumni group has been called for November 2nd to meet the delegation from Phoenix.

TOM TUGMAN IN DENVER V.A. HOSPITAL

TOM TUGMAN, F '61, who was seriously injured in a plane crash on June 27th, remains in a coma in the Veteran's Hospital in Denver, Colorado. TOM is employed by the Associated Press as regional membership executive, and was on business for the association when the light Cessna plane he was piloting crashed near the end of the airport runway at Douglas, Wyoming. Tom spent some time in the Cheyenne hospital and in August was moved to the V. A. hospital in Denver. Tom's wife, Floy, is teaching at the Junior High School in Littleton, a suburb in southwest Denver, where she and the four little Tugmans are living at 5970 Elmhurst Drive.

Although Tom's condition remains serious, he has survived many operations and we hope that his fine physical strength and the prayers of his many friends and classmates will carry him through the crisis to complete recovery.

LARS and VIRGINIA recently returned from several years in Denmark and Norway on assignments for Minnesota Mining & Manufacturing Co. The last overseas listing showed two Thunderbirds in Norway, the HALS-HAGENS and the GLENN EVANS - and wouldn't you know it, they turned out to be next door neighbors, a fact that came to light when LARS read a copy of the Thunderbird bulletin. You're right - it didn't take them long to get together for a bit of AIFT reminiscing. LARS tells us that GLENN is doing a tremendous job for Standard Oil of New Jersey. He arrived at his Oslo assignment with just a smattering knowledge of the Norwegian language, but after buying all available newspapers and learning a few new words each day from that source, he was in a very few weeks conducting sales meetings with a very fluent and extensive Norwegian vocabulary. A note from ALF JOHNSEN: "The purpose of this note is just to correct the item in the last newsletter. BETTY and I are in Madrid, rather than Barcelona, and I am employed by Compania Anonima TODDY Espanola, rather than Moore Commercial, S.A. I am here as vice president and general manager and we expect Madrid to be our home for quite a while." . . . The "LUCKY BOB STRATTONS" scored another hit on TV's "Price is Right" show. In 1958 INGER won herself \$3700 worth of "loot" - this time it was BOB who appeared on the show's evening program and piled up winnings totaling over \$10,000. . . . JOHN LAMPSHIRE is an agent for Farmers Insurance in Denver, Colorado. . . . CHET NICHOLS is a sales engineer for ALCOA in Atlanta, Georgia. . . . BOB MELLEN, Director of Catholic Relief Services in Nigeria, reports on the CRS Thunderbirds in that area: "We had DAVE SHEEHAN '62 here for several weeks for training.
