Yavapai College

is located deep in the heart of Rough Rider country - Prescott, Arizona. Bucky O'Neill and his Rough Riders trained for the Spanish-American War on the hill directly behind the dormitory. The four main campus buildings were constructed over the Rough Rider's former parade grounds. Due to this history, Yavapai College's mascot and annual have been designated the ROUGH RIDER. Prescott is surrounded by many interesting and historical sites; such as Ft. Misery located by the first territorial Governor's Mansion pictured on the opposite page. Other locales of interest are illustrated throughout the book.

DEDICATION

VOL. II OF THE ROUGH RIDER IS
DEDICATED TO THE YAVAPAI COLLEGE
COMMUNITY, ADMINISTRATION,
FACULTY, STUDENTS AND STAFF

Sunday, September 20, 1970, Yavapai College was officially "born" in dedication ceremonies on campus.

Governor Jack Williams was guest speaker for the event. In addressing himself to the administration and faculty of Yavapai College, he stressed the role these play in the preparation of students for the future. He said, "You are educating the leaders of tomorrow. For the moment, you are shaping the student's world but in a very few years it is he who will shape your world."

Dr. John W. Barnes, president of Yavapai College, was master of ceremonies for the dedication. In his dedication address he stressed the future when he said, "It is not what has been done but what can be done!"

Dr. Fred Wheadon, chairman, Yavapai College Board of Governors, in his dedication speech reviewed how Yavapai College came into being. The official founding of the college took place in 1966 with the first classes being held in temporary quarters from the opening day, September 29, 1969, until classes began a gradual move-in on campus in February, 1970.

Other speakers on the program were Dr. George Spikes, chairman of Arizona State Board of Directors for Junior Colleges; Dr. L. B. Blanchard, Yavapai County Representative on Arizona State Board of Directors for Junior Colleges; and Dr. Taylor Hicks, Ex-Yavapai County Representative on Arizona State Board of Directors for Junior Colleges.

For the musical portion of the program, Mr. James Burns directed the Yavapai College Mixed Chorus in the National Anthem; "Sine Nomine" by Vaughn Williams; "God Bless America" by Berlin Ringwald; "Aquarius—Let the Sunshine In" by Rado-Ragni and MacDermot; "Eternal Father, Strong to Save" by Dykes-Whiting and Hamilton; and "God of Our Fathers" by Roberts-Warren.

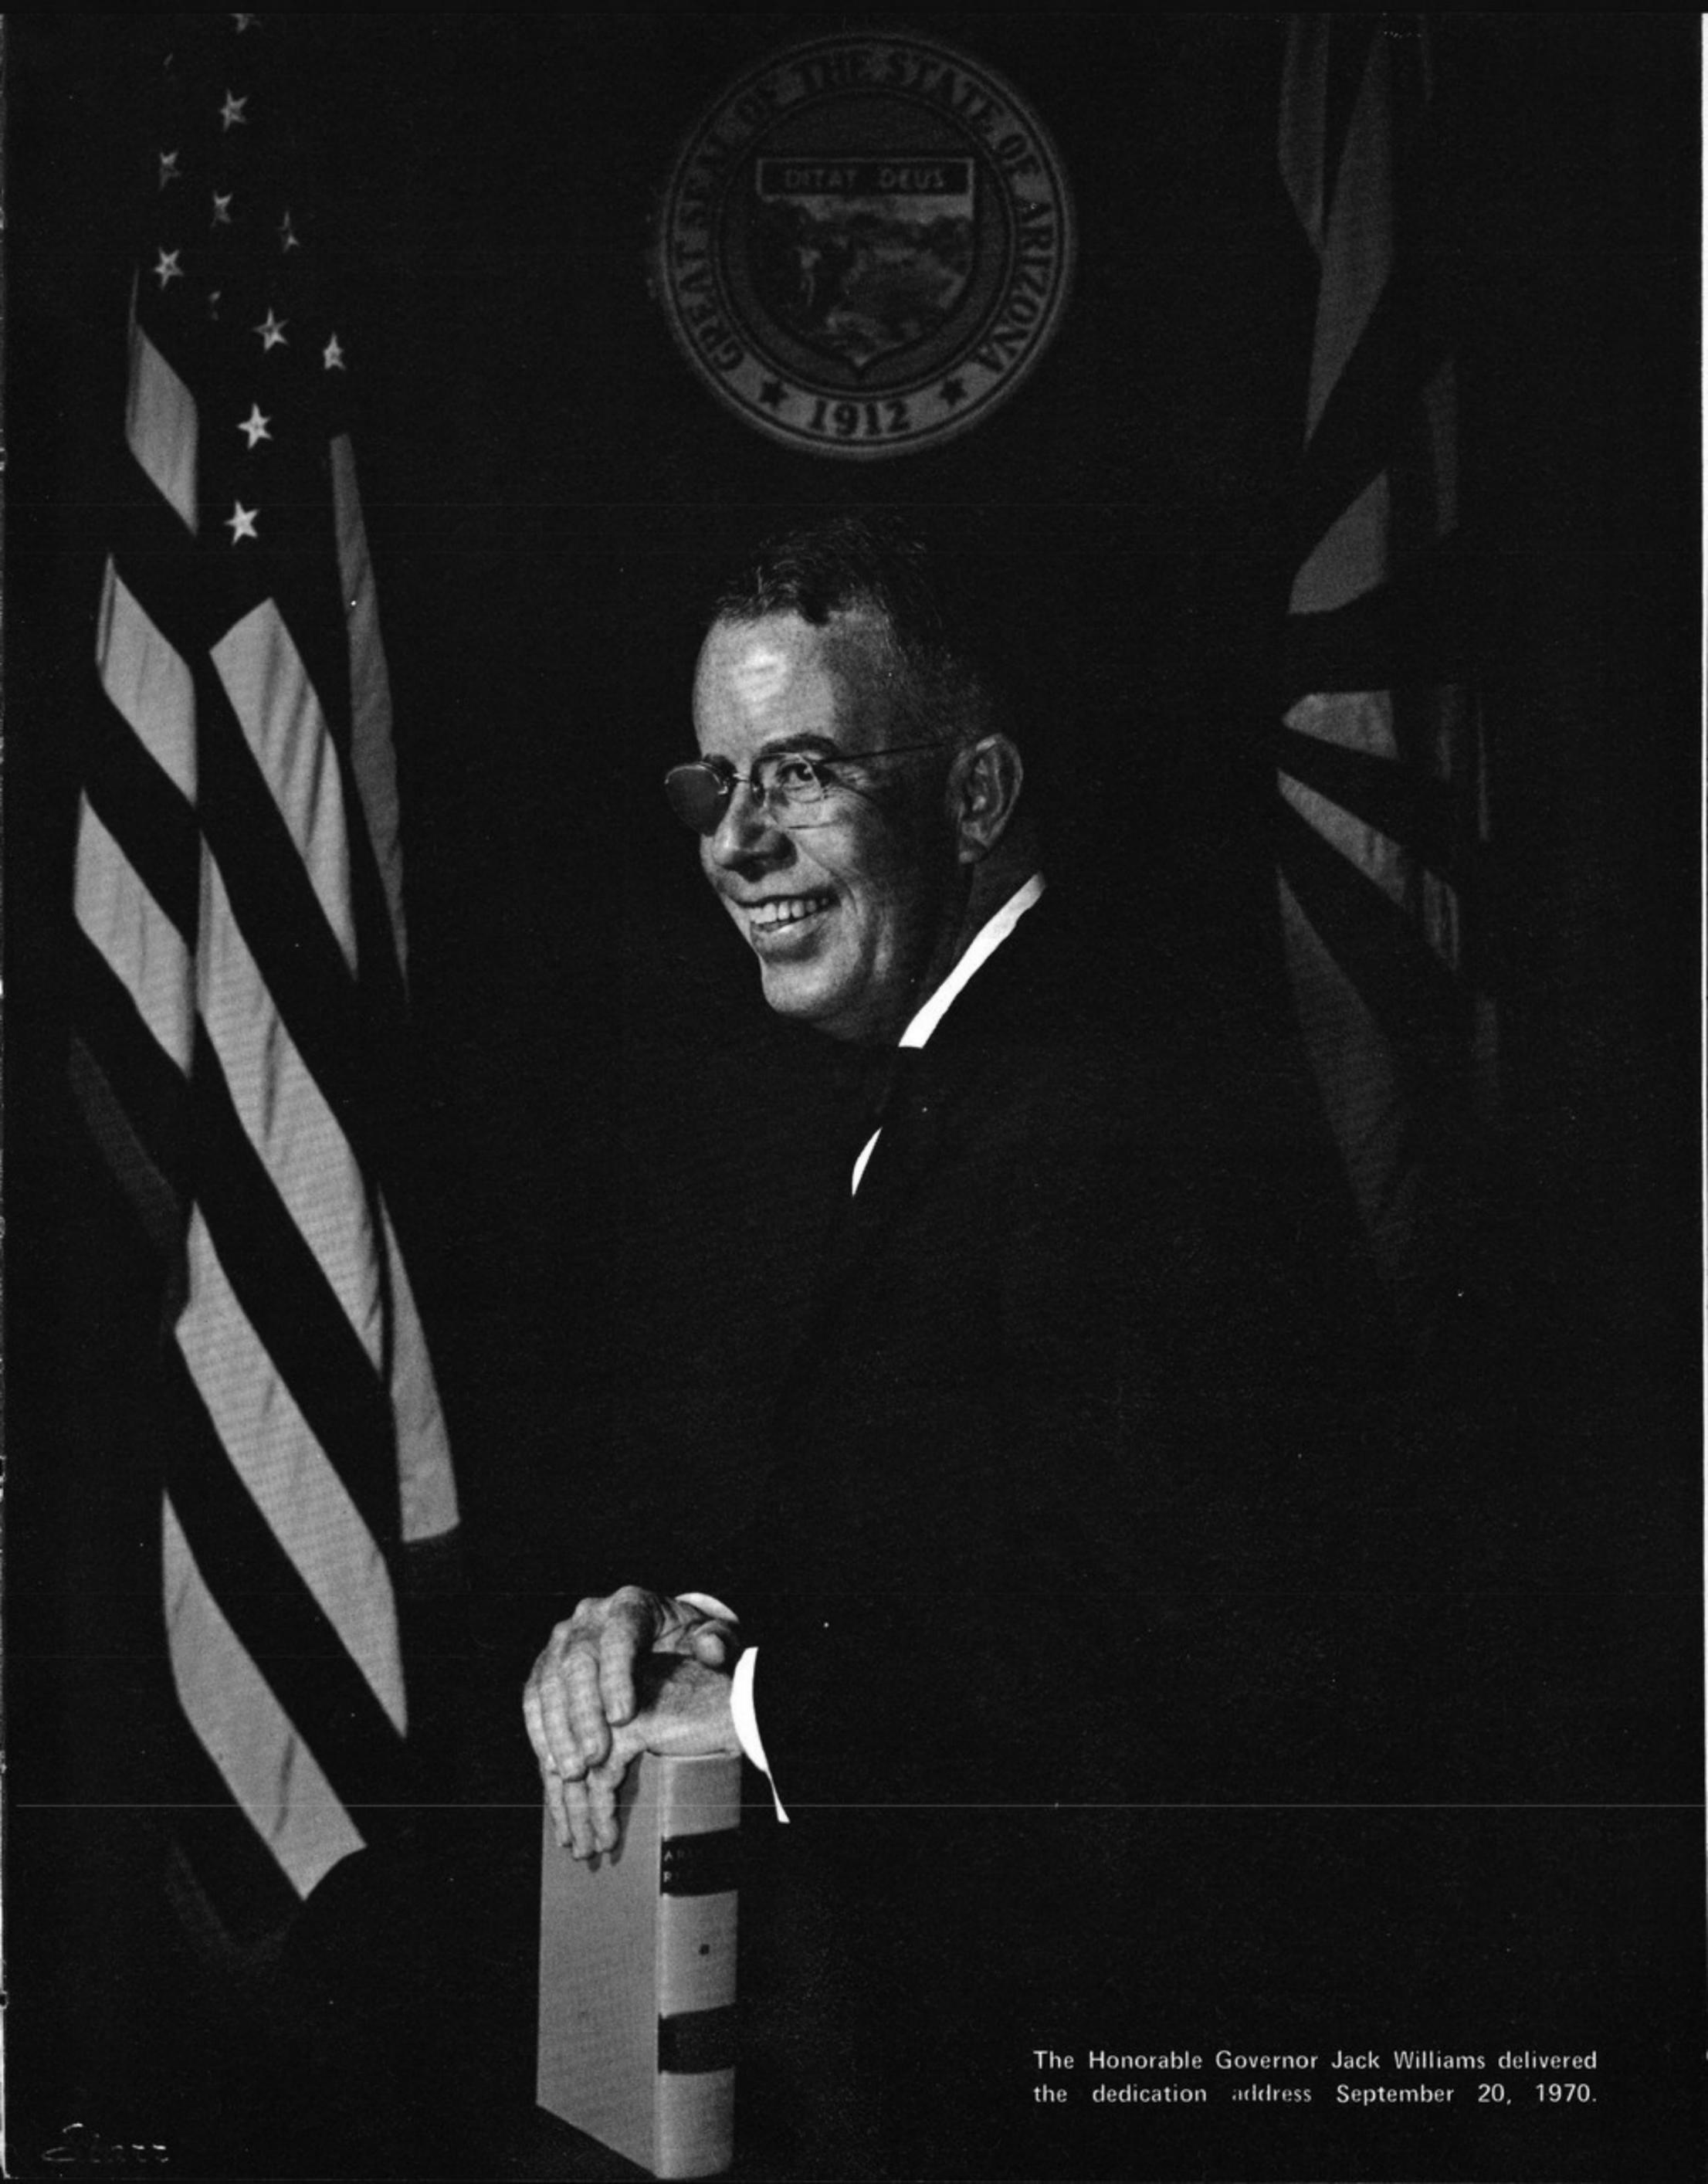

Preceding the introductions by Dr. Barnes, Mr. James Born, Prescott musician presented a recital of organ music.

The presentation of the colors was handled by the Prescott Platoon, Arizona Army National Guard.

The Reverend Mr. Richard S. Anderson, pastor, Trinity Presbyterian Church, offered the invocation.

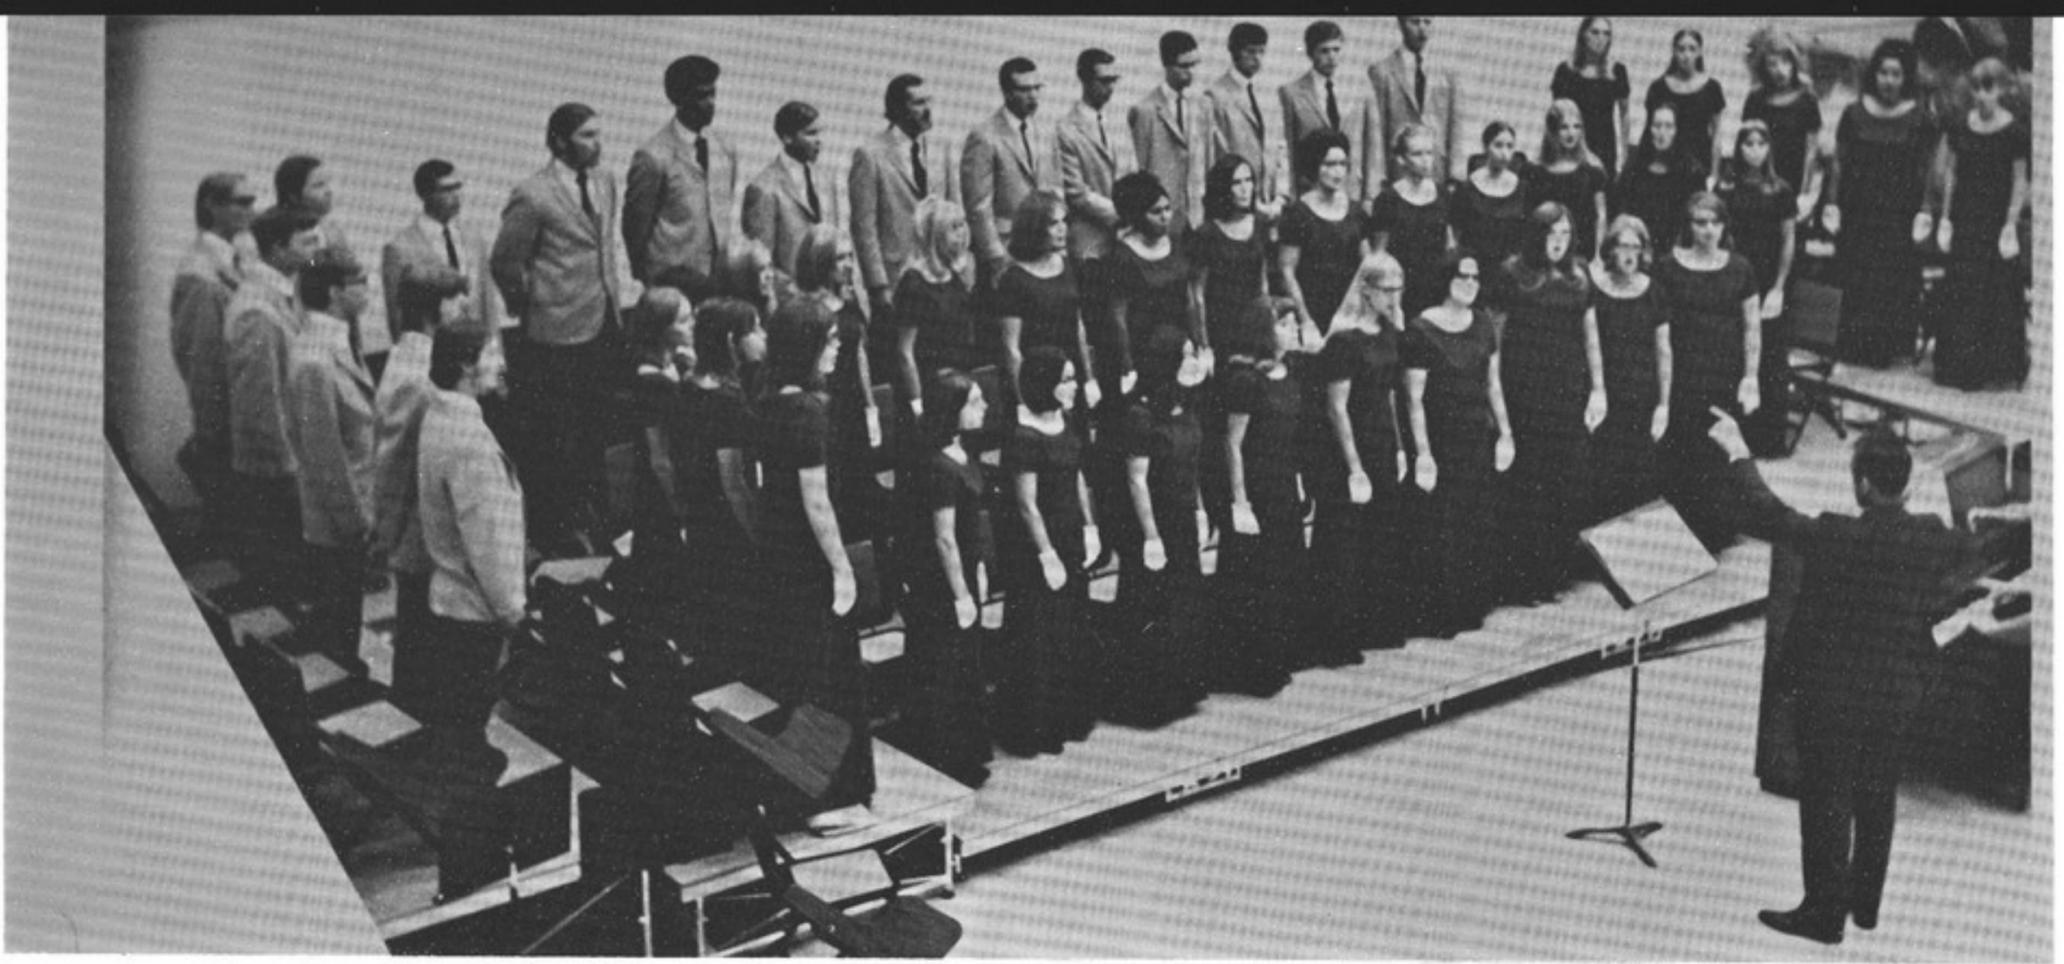

More than 1,000 Yavapai County citizens attended the dedication ceremonies as Yavapai College became the tenth junior college in Arizona.

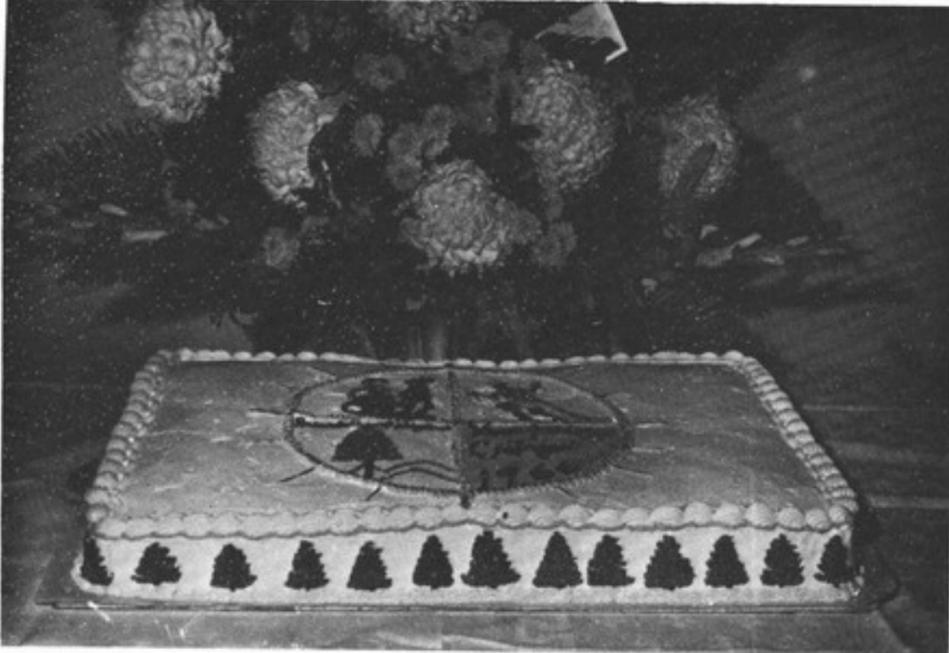

The Honorable Governor Jack Williams delivered the dedication address September 20, 1970.

Mr. James Burns directed the choir while the audience joined in singing the national anthem.

Continuing Education student, Mrs. Mary Seidel, decorated and presented this cake to the Yavapai College dedication services.

Mr. James Born presented an organ recital as the opening musical portion of the dedication program.

The five members of the Board of Governors were presented bronze statues of the Rough Rider during the dedication. Dr. John Barnes, president of Yavapai College (far right) presented the first statue to Dr. Fred Wheadon. Following Dr. Wheadon in receiving their statues were Mr. Richard Walraven, Mr. Duane Miller, Mr. Roy Campbell and Mr. Walter Statler.

John Rocheleau, Craig Heiselmeyer, and Don Hockensmith presented a trumpet trio to "God of Our Father" as the chorus sang.

John Vaughn accompanied the choir on his electric guitar in "Let the Sunshine In".

The official presentation of colors was presented by the Prescott platoon of the Arizona National Guard.

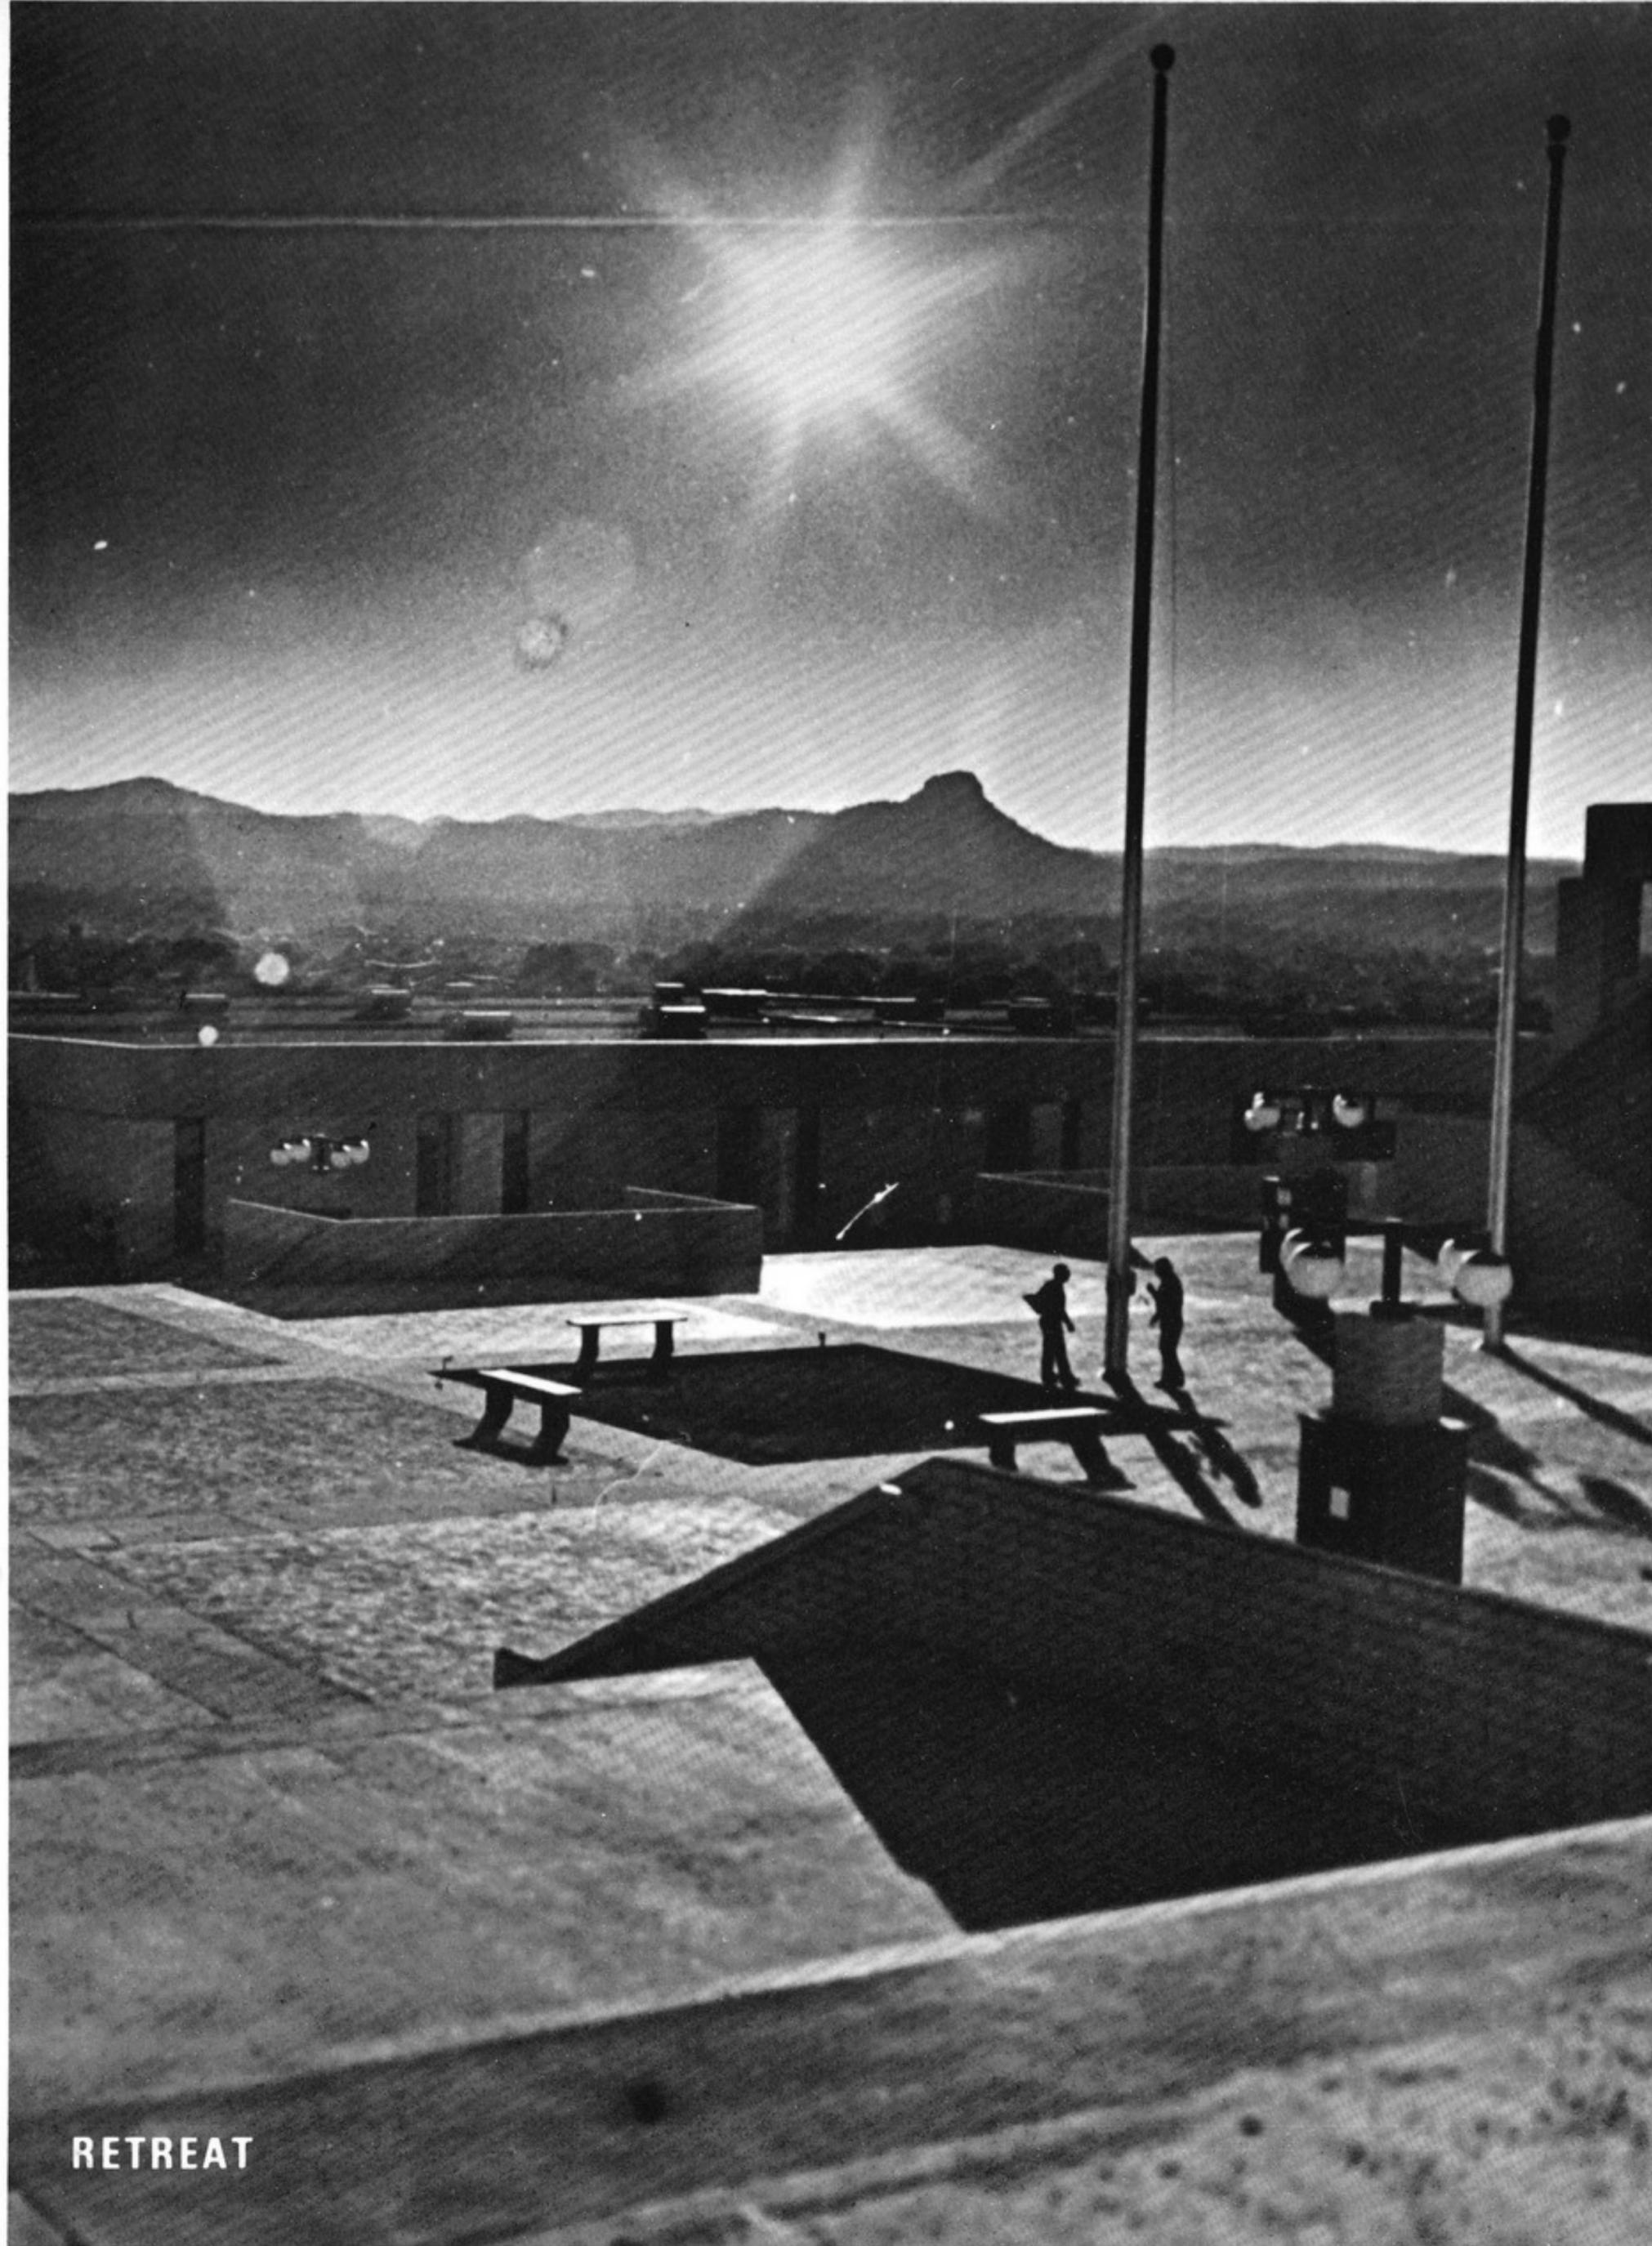

After the services, members of the audience look for the Governor to express their appreciation for his presence at the ceremonies.

Granite Creek

Prescott was developing rapidly: On December 29, 1863, the territorial governor's party arrived in the newly created Arizona territory. That same year the Walker party had discovered gold on Weaver, Groom, Lynx, and Granite Creeks, at or near Ft. Whipple. On January 22, 1864, Gov. Goodwin arrived at Ft. Whipple. In May, the seat of government was moved from the fort to a spot approximately 18 miles to the southwest, and by July, the town was taking shape on Granite Creek. On May 30, 1864 the citizens held a meeting on Granite Creek and established the town, which was to be named Prescott, in honor of the historian William Hickling Prescott.

Student Mike Evans, left, ponders a question with Mr. Bill Gipe, chairman of the Guidance and Counseling Department.

Service to students is the main reason for the existence of the Counseling Center at Yavapai College, according to Mr. Bill Gipe, chairman of the Guidance and Counseling Department.

Usually a student's first contact with the Counseling Center is at the time of registration. The first step in the registration process is when the student meets with a counselor to plan a course of study. Instead of a mass registration procedure, Yavapai College believes in an individual approach. This is accomplished by having a half-hour to an hour interview in which the student and counselor plan the courses that the student will take.

If a student plans on transferring to another college or university, much care is taken to be sure that the courses he will take at Yavapai College will be appropriate for the courses of study.

The Counseling Center also participates in registering students for courses in the communities outside of Prescott.

O'Neill, William O., "Buckey," B. Ireland, 1860. D. Cuba, July 1, 1898. Printer and typesetter by trade. Immigrated to Phoenix, Arizona, 1879; moved to Prescott, 1881. Operated livestock newspaper, Hoof and Horn. Acquired nickname, "Buckey," from his fondness for faro, also called "Buck the tiger." Became a probate judge in Yavapai County 1886. Elected sheriff 1888. Ran for delegate to Congress, Populist ticket, 1894 and 1896-unsuccessfully. Elected mayor of Prescott 1897. Became the first Volunteer accepted into federal service for the war with Spain April 29, 1898. Captain O'Neill, Commander of 'A' Troop, first Volunteer Cavalry Regiment, was killed in action July 1, 1898.

The "Buckey O'Neill Statue" has been a Prescott landmark since its dedication on July 1, 1907. The monument, created by sculptor Solon Borglum, is erected close to the spot where the Volunteers had lined up in the plaza to listen to Governor McCord's farewell and receive their flag on May 5, 1898. Although it was not originally intended to portray one man—the monument was designed to honor all the Arizona Rough Riders—the spirit of the hell-for-leather cavalryman is distinctly O'Neill's.
